DAILY TRIBUNE.

Wednesday Morning........Aug 26 1857.

The Failure of the Ohio Life Insurance and Trust Company.

The failure of the Ohio Life and Trust Company was the subject of general conversation in commercial circles yesterday. Every body was astonished to hear the news. That Company had sustained the highest reputation for solvency and responsibility. Capitalists placed perfect confidence in its soundness. It was an institution of many years standing, and had generally been managed with prudence and fidelity, at least so the community believed. This Company handled a capital of more than *six millions* of dollars. Its legitimate business was to loan money on bond and mortgage, for terms of years, at reasonable rates of interest. It was the favorite place of deposit in Ohio, of guardians, in which to loan out the money of their wards. Large sums were held for widows also, as well as minors. The same may be said of trustees for their principals; and citizens, who had accumulated surplus means, and sought quiet in retirement from business, very often placed in the hands of the Company, large sums of money, for the residue of their lives, contenting themselves with drawing therefrom a moderate annual interest. The majority of the permanent deposits with the Institution belong to widows and minor heirs, put their for safe keeping until wanted.

It had become the general depository for thousands of people who were afraid of banks and brokers. Everybody in Ohio, and we might include Indiana, had full confidence in the solvency and safety of the Life and Trust Company. Its name had become synonym for honesty and soundness. It was not a bank of circulation, but of deposit and loans. Its collaterals were supposed to be of the highest character, such as State stocks and the best of real estate taken at a low appraisement; and for many years such they were. But its managers were not satisfied to let well enough alone. The frenzy of speculation got among them. They threw themselves in the way of the "bears" and "bulls" of Wall street, loaned vast sums at high rates of interest, to *kiting* Railroad Companies, and received their worthless or depreciated securities therefor. When the bottom fell out of those Railroad bonds and stocks, the Life & Trust Company had to suffer the loss, and thereby have brought ruin upon hundreds of confiding guardians, widows and children. The telegraph fixes the liabilities of the Company at the enormous sum of seven millions! Attachments had been issued and served upon the assets of the Company by the Sheriff of New York. We wait for particulars by the New York papers.

More Failures.

The failure of JOHN THOMPSON, Esq., No. 2 Wall street, New York, was reported by telegraph yesterday, and is credited by his correspondents in this city. Mr. THOMPSON has been prominently known for a number of years as the publisher of *Thompson's Reporter* and has always borne a reputation for financial soundness, if not integrity. He kept the New York accounts of a number of Banks in this State and Wisconsin. We hear no particulars as to the extent of the failure, and cannot, therefore, judge of the probable loss of his Western correspondents. We understand that his office is for the present in the keeping of the Sheriff. His principal correspondent in this city was Mr. F. G. ADAMS who, we understand, had a considerable deposit with him. We are happy to assure the public that the failure of Mr. THOMPSON will cause no suspension on the part of Mr. ADAMS—that he has money enough in his vault to pay all his depositors as fast as they choose to draw.

We presume that the failure of Mr. THOMPSON will not cause that general feeling of sudden and poignant regret which would be elicited by the withdrawal of other parties from the financial world. We think that the influence he exerted in respect of the paper currency of the West was altogether deleterious—that *Thompson's Reporter* was mainly a *Reporter* for THOMPSON—that his tricks with shinplasters were little better than other people's tricks with cards and thimbles—that he kept a menagerie for wild cats of dangerous ferocity, which we are not sorry to see temporarily closed.

In addition to the THOMPSON failure, the telegraph reports that of Messrs. DELAUNAY, ISELIN & CLARKE, bankers and stock brokers. The failure is said to extend only to their stock business—as a man may be said to suspend payment as dealer in spavined horses while maintaining solvency in tin ware.

We subjoin the telegraph news received at 10 o'clock last evening:

NEW YORK, Aug. 25.

The assets of Mr. Thompson are largely in bank notes not available at present, and other securities alike of small value, in the present excited state of the market. The embarrassments of Delaney, Iselin & Clarke thus far are only to their stock business. The house, however, are understood to have purchased some exchange on short time.

The affairs of the Ohio Life Insurance and Trust Company are freely discussed in the street. It is stated that the Cleveland & Pittsburg Railroad owes it $500,000, for which its bonds are pledged. The bank of Norwalk has its account with the company, and report that its funds as well as its collection paper have been used by the Trust Co., in common with the collection paper of other houses.

The funds of many western travelers are made unavailable causing much inconvenience. No statement has been made of the affairs of the Company, but it is understood that within a few days a full exposition will be made.

The Stock market closed with a more confident tone, no more failures having been announced. Sellers are not inclined to make any further sacrifices. The Bears have been heavy purchasers to-day.

Missouri.

The Border Ruffians have undoubtedly triumphed in the returns—the vote remaining an open question. At last accounts the Secretary of State was still physicking the returns.—STEWART will doubtless be Governor of Missouri *de facto* for the next three years if he lives so long. The St. Louis *Intelligencer* of Monday says:

"There is one thing connected with these 'amended returns,' to which we wish to direct particular attention. They are all in favor of Stewart. We do not hear of any mistakes being discovered and rectified so as to increase Rollins vote; but each day we are informed that inaccuracies have been detected in the returns from this or that county, which, when corrected, decrease Rollins, or augment Stewart's vote."

Iowa.

The *Times* of yesterday contains a table of the recent vote in Iowa, showing a majority of 78 against the New Constitution, with ten counties to hear from. This result is contrary to the generally received opinion both here and in Iowa. The returns of several counties in the *Times* differ essentially from the official vote promulgated at Iowa City, and at least five of the counties which the *Times* classes as "not heard from" were reported last week. We have seen nothing yet indicating less than 1,500 majority for the Constitution.

☞ What did it (the TRIBUNE) do during the Main Law Campaign?—*Times.*

As that was before the present Editors of the TRIBUNE became connected with it, the *Times* will have to ask C. C. FLINT and ALFRED DUTCH, who, we believe, conducted the *pro.* and *con.* of the liquor controversy at that time.

The Great Atlantic Telegraph.

THE CABLE LAID HALF-WAY ACROSS.—THE AGAMEMNON HAS RELIEVED THE NIAGARA.

[From the New York Times, August 24th.]

By the propeller *Bienville*, Captain Cummings, which reached this port yesterday morning, we have the most interesting news of the progress of the Atlantic Cable—some days later than that brought by the *Anglo Saxon*, whose account of the success of expedition we also publish this morning.

The *Edinburg* left Glasgow on the 9th inst., and on the 14th about 7 o'clock, A. M., the weather being rather hazy, two large ships were discovered about 900 miles from the Western coast of Ireland, one of which was, seen through the Captain's glass, distinctly paying out the cable. This ship, as well as that in attendance upon her carried the British flag. Hence, as the vessels were then more than half way across, the portion of cable assigned to the *Niagara* must have been successfully laid, and after it had been successfully joined to the coil on board the *Agamemnon*, the latter must have started with her share of the World's great link under equally favorable auspices.

On the night of the 15th, a brisk gale sprung up, which continued during the 16th, and somewhat delayed the voyage of the Edinburg. It is probable the Agamemnon felt the effect of this gale, but as she was only advancing at the rate of five knots an hour, when seen by the Edinburg, its violence, though it might delay her progress, was, according to Capt. Cummings' judgment, not likely to damage the cable. It was the opinion of the Captain, first mate, and the old sea hands on board, that everything promised well for the success of the great enterprise, and that the cable would reach safe quarters in New Foundland on Tuesday, or, at least, Wednesday of the present week.

TEXAS.—The *Galveston News* of the 11th, referring to the election returns, says:

In what has already been received, Runnels leads Houston about 6,000 votes, and the balance of the State will doubtless increase his majority to 9,000 or 10,000 at least.

Frank Lubbock, Lieutenant Governor, runs ahead of his ticket pretty generally throughout the State.

White, for Commissioner of Land Office, is running better in the eastern and northern counties than was expected. He is some 2,000 yet ahead of Crosby, and stands a good chance of election.

The *Galveston Civilian* says: The Legislature will be overwhelmingly Democratic. So far as heard from, the state of parties is as follows: Senate—Democrats 27, Opposition 6. House—Democrats 57, Opposition 7, Independent 2.

CITY ITEMS.

REFORM SCHOOL.—William Buntin, a vagrant boy, was yesterday sent to the Reform School by Judge Milliken.

I. C. R. R. LAND SALES.—The sales of Illinois Central Railroad lands for the week ending Saturday night, August 24th, were 6,799 acres for $93,230, an average of nearly $14 per acre.

DROWNED.—A sailor named Henry Bradford, an Englishman, accidentally fell overboard from the schooner *T. Y. Avery*, in Saginaw Bay, on the 18th inst., and was drowned before assistance reached him.

CHILD DROWNED.—George Jendecker, (German) a child of two years of age, fell into a cistern at his father's house, 271 South Wells street, at about half past five o'clock Monday afternoon, and was drowned. Coroner Hansen held an inquest.

ABUSING HIS WIFE.—Frank Curran has been before the Police Court several times for abusing his wife, and was yesterday brought up again. Notwithstanding his earnest appeals to "Misther Mulligan," he was fined $5, and promised a place in the Bridewell if he came up again.

A FAST MAN.—The TRIBUNE, writing the biography of a Signor Moreto, says that "he first came to Boston nearly three months ago, where he remained about a year."—*Journal.*

Read "came to Boston nearly *three years* ago," &c., and you will have it as written, though not as printed.

KALAMAZOO FEMALE SEMINARY.—We saw yesterday, at the rooms of Bayliss & Coleman, the plans for this edifice, which has lately been commenced. It is to be built of brick, in the Norman style, and to consist of a central building with two large wings, each four stories with an attic. The whole will be 220x140 feet. The chapel on the first floor will be 46x60 feet. It will have 300 dormitories, each 10x16 feet. It will be a splendid edifice, and will cost about $120,000. It is built by donations in Michigan, $150,000 having been subscribed.

FIRE.—A fire occurred yesterday afternoon about two o'clock, in a house at the corner of Lake street and Michigan avenue, occupied by William Ahles, as a French restaurant and boarding house. It arose from some defect in the flue, and was first seen when breaking out through the roof of a two story wooden building attached to the rear of the house, Liberty Hose, No. 6, was promptly on the spot, and soon extinguished the flames. Loss probably $400. No insurance.

NORTHWESTERN FEMALE COLLEGE.—This institution, located at Evanston, on the Lake Shore, near Chicago, will commence its Fall Term on the 1st of October. The edifice lately destroyed by fire has been replaced by a new, larger and more commodious structure, five stories high. It is beautifully located, and affords the young ladies of the Northwest ample facilities for a thorough collegiate education, near home, and in such rural seclusion as will secure health, morals and refinement. Rev. W. P. Jones is the President, and Mrs. W. P. Jones the Lady Principal, with several able assistants.

LARCENY.—John Sullivan was yesterday held to bail in the sum of $300, by Justice Milliken, to answer the charge of stealing $27 from Michael Biglan. Biglan came in [illegible] and went to a house No. 31 Market street, where his wife keeps boarders. He lay down on the floor, with Sullivan and another beside him. When he awoke, he found his pocket book lying by his side, but the money was gone. Sullivan was arrested, and when he was brought to the Police Court, money was found on him, which Biglan identified as the same which he had lost. Sullivan was committed in default of bail.

PURSUANT to a call published in the papers of Monday, a meeting of the friends of Sabbath Schools was held in the basement of the First Presbyterian Church on Monday evening, to consider the expediency of calling a "Northwestern S. S. Convention" in this city at an early day. The matter was discussed by Rev. Messrs. Dickinson and Wight, and Messrs. S. D. Ward, C. G. Hammond, Holt, R. P. Burlingame, Dr. Coone and others. It was decided to call another meeting for further consideration on Tuesday evening of next week at which time it is hoped that all persons interested will be present.

GREAT WESTERN INSURANCE CO.—We call the attention of our readers to our advertising columns containing the card of this Company. The officers and directors of this institution belong to our first class business men, and the list of stockholders is such as will secure the confidence of the public.—The amount of stock not paid in in actual cash, has been secured by real estate, worth three times the amount of subscription. We do not hesitate to recommend this company as a fully reliable and sound institution. The President, Mr. James H. Rees, is well known to our community as a gentleman of integrity, and the management is in the hands of an experienced insurance man,

ACCIDENTS.—A man named John Gunton, working the marble yard of Messrs. H. and O. Wilson, was on Monday severely cut in the head by a saw. He was knocked against it by a slab falling from a block which was being cut into slabs by another saw. The slab which fell upon his legs also crushed his ancle.

Charles Smith, a mason, working on the new block of buildings owned by S. Lind, Esq., on Market street, was injured on Monday by a window sill falling upon his shoulder. The sill was being raised with a pulley, and the block giving way, the stone came down, inflicting a severe flesh wound upon his shoulder.

TO BE RE-BUILT.—A five story marble front building is to be erected by Mr. James Larmon, on the burnt district at the corner of Clark and Washington streets, to be called the "Larmon Block." It will front 100 feet on Clark street, and 80 feet on Washington. The basement and first story are to be of iron, and the remainder of the front on Clark street of Athens marble. The marble front will be continued fourteen feet on Washington street. The rest of the Washington street front will be of pressed brick. The lower story will be occupied as stores, and the upper stories will be divided out into spacious offices, with a hall through the middle. The principal entrance is to be near the centre of Clark street. It is to be finished by winter, and is to cost about $50,000. Bayliss & Coleman are the architects.

Mr. P. Larmon, one of the gentlemen interested in the above block, is also erecting a very handsome three story building on the northwest corner of Clark and Madison streets. It is a solid stone front, with slender columns and Roman caps and arches. The size is 20x80 feet. It is intended for a drug store and offices, and is to cost about $9,000.

POLICE COURT.—Before Justice Milliken. Matthew Schoe threw an old woman out on the street from his saloon, and resisted the officer. Fined $5.

James O'Neil, drunk and fighting; fined $5.

Mr. and Mrs. Hearty had been fighting together, and the old man made his appearance with a red eye and a "clawed up" face. He was fined $5 and his wife $2.

Mary Ann Smith, a vagrant, had been lying around loose for the past two months, haunting the Lake shore principally. She was fined $5 and sent to the Bridewell for 40 days.

Edmund Sewers, pretending to be an officer, fined $3.

Rosa McLawn, a crazy vagrant, was sent to the Poor House.

James Guillon, drunk and disorderly, fined $6; Peter Wiler, fighting, $5.

John Boyle was fined $25 for beating and bruising a drunken man at the Hamilton Restaurant.

Stephen Reese, mate of propeller Huron, was fined $10 for whipping a deck hand. The deck hand had beat a boy, and Reese wanted to punish him. The deck hand and the boy were fined $2 each.

Charles Wilcox, larceny of $75, continued to Saturday, with $500 bail.

Several minor cases were disposed of.

COOK COUNTY AGRICULTURAL AND HORTICULTURAL SOCIETY.—The Executive Committee of this Society met last Friday afternoon and resolved to hold a County Fair sometime in the early part of October next, and for this purpose appointed a committee of ways and means to make estimates, prepare a premium list, negotiate for the use of ground, etc. S. D. Child, chairman of the committee, whose experience in such affairs makes him a host in himself, has taken hold of the matter in good earnest, and with his really good co-laborers, Messrs. H. D. Emery and Edgar Sanders, we look for an interesting and encouraging report at the next meeting. We understand the premium list will contain a liberal series of premiums for competion among the scholars of the county. This is a good idea, and will furnish an additional incentive to the pupils of our public and district schools, to whom we understand the competition will be limited.

We hope to see a good attendance from the country at the meeting next Friday. The county should take an active interest in this matter. It is for their interest to do so, and while admitting the fact, and loudly clamoring for a society, it is not just or honorable to throw the enormous task of its formation upon the shoulders of a few.—The city has spoken out nobly and well; and it only remains for the country to show, by an active, energetic participation in the proceedings, that they deserve the praise and encomiums bestowed upon them.

Come in, then, from Bloom and from Barrington, from Palos and Palatine and Lyons and Rich and Maine, and show that you are awake to your own good. Let us have a fair worthy of Cook County, worthy of its agricultural community, and we shall be satisfied. There is enough to do, and time enough to do it in, if each man will only take hold and do his share.

The meeting on Friday the 28, will be held at the hall of the Mechanic's Institute, at two o'clock, P. M.

COMPARATIVE COST OF MACADAMIZING AND PLANKING THE STREETS OF CHICAGO.—Since the experiment of macadamizing the streets of our city has been instituted, a great deal of discussion has been had as to the comparative cost and cheapness of this kind of road bed over the planking in such general use, and articles, pro and con, upon this subject, have found their way into the newspapers. Some time ago, the Council ordered Harrison street to be macadamized, and a number of property holders on that street, whose property was assessed to pay for the improvement, petitioned the Council to have the street planked instead, for the reason, as they alleged, that the latter road bed is cheaper than the former, and, the street not being a prominent thoroughfare, quite as useful. The petition was referred to Mr. N. S. Bouton, City Superintendent, with instructions to report to the Council the comparative cost of both planking and macadamizing. On last Monday evening the Superintendent made the following report:

To the Mayor and Aldermen of the City of Chicago in Common Council assembled:

Your Superintendent of Public Works, to whom was referred the remonstrance of T. F. Baldwin et al., against macadamizing and in favor of planking Harrison street and Hamilton avenue, begs leave to report the same back to your honorable body, accompanied by estimates of the cost of planking one mile of street, with the necessary filling to raise the street to an equal height with fourteen inches of macadamizing.

The annexed estimates show the cost for planking twelve, sixteen and twenty-four feet wide, with three inch oak plank; also, the cost of macadamizing one mile the same width.

All of which is respectfully submitted.

N. S. BOUTON, Sup't.

Chicago, August 22, 1857.

To plank one mile of street twenty-four feet wide with three inch oak plank, spiked with wrought spike to seven four by six inch, oak stringers, adding sufficient earth to fill up equal to eleven inches and twenty-eight feet in width:

Estimate of cost of macadamizing one mile of street, one course of stone broken to four inch maximum diameter, eight inches deep, and covered with one course of stone, broken to two and one quarter inch maximum diameter, six inches deep, also to grade the road-bed so as to make a suitable face for the stone:

The following is a tabular exhibit of difference in cost, as by the above estimates, of the two kinds of improvement for the three different widths of road-bed:

TWENTY-FOUR FEET WIDE.	
Planking	$16,885 70
Macadamizing	15,664 00
Difference	$1,221 70
SIXTEEN FEET WIDE.	
Planking	$11,703 25
Macadamizing	10,516 00
Difference	$1,187 25
TWELVE FEET WIDE.	
Planking	$9,201 02
Macadamizing	8,008 00
Difference	$1,193 02

We are informed by the Superintendent, that the estimates for macadamizing are made at what it would cost the city to do the work by day labor, but that it is probable the same work could be contracted for at nearly a thousand dollars less per mile.

These estimates, it must be remembered in forming an opinion as to the best mode of making a road-bed, are for the first cost of the work and have no reference to the expense of keeping it in good order, which is quite as important a consideration as the other, and it is to be regretted that the report of the Superintendent does not contain at least some approximate estimates upon this point also. It would be scarcely satisfactory to those who we pay for street improvements to tell them that this or that method is the cheapest at the outset than any other when in fact, at the expiration of five or ten years, it may be found the most expensive, owing to the cost of repairs necessary to keep the street in passable condition. The public will be far more capable of forming a correct judgment as to the comparative value of the two kinds of improvement, when it is furnished with at least an approximate estimate of the cost of keeping each one in good repair. In the absence of any such estimates, the controversy between the advocates of planking and macadamizing will probably be continued with unabated pertinacity.

There are some objections to macadamizing which are entitled to the serious consideration of our readers, the most important of which, so far as comfort and health are concerned, is dust. All experience shows that macadamized roads by the time they are worn down to a comfortable smoothness, are covered with a fine dust, which is not only excessively disagreeable, but most injurious to eyes and lungs. This dust is constantly accumulating by attrition, until the whole material of which the road is composed, is either ground up or sunk beneath the surface of the earth. Macadamize Harrison or any other street, and it will share the fate of all other macadamized roads; either the atmosphere will be constantly filled with minute particles of pulverized stone, or the street, from being well watered, covered with stone paste, if it may be so called, from one to six inches deep. How much consideration may be given to this draw-back is somewhat uncertain, when it is remembered that, to a far greater extent than it should, the question of immediate cheapness controls the public decision as to the method to be chosen. The superintendent has decided that macadamizing is the least expensive at the start, and with many persons this is quite sufficient to determine the matter.

A word as to the much abused planking. Some of our citizens may recollect the planking put down many years ago on Lake street, between State and Dearborn streets. If we remember rightly, the plank were four inches thick, having been made by ripping eight inch square timber. After it had been in place some seven years it was taken up to lay a gas pipe or for some analogous purpose. A friend who was looking at the time assures us that he examined the planks then temporarily removed, saw them sawed across, and that they were not at all decayed. The only loss they appeared to have sustained was from the mechanical attrition of the wheels and horses feet which had passed over them, and that was inconsiderable. The material seemed to be perfectly good for three years more service.

It deserves to be carefully considered whether a substantial planking of this character will not require less repairs than macadamising, especially if laid upon a well drained road bed of sand or gravel. We think such a planking thoroughly laid down, would be good for ten years at least. A great deal of the planking heretofore done has been so imperfectly executed that it has, we think, produced a wrong impression as to the usefulness and durability of that mode of covering streets.

The estimates of the Superintendent are satisfactory so far as they go, but we trust that that officer, or some other person possessing the necessary data, will furnish the public with the cost per mile of the kind of planking we have indicated, and also a comparative estimate of the durability, cost of repairs, etc., of such planking and macadamizing. The subject is one of great importance, and now, at the very outset, it is best that the public should be supplied with all possible information relative to this substitution of macadamizing for planking the streets of minor importance, for they take it for granted that the principal thoroughfares will be covered with a much better material than either of them.

HEAVY FINE.—John Sullivan was fined $50 yesterday in the Police Court, for resisting an officer He was in company with Phillip Dugan at the Saratoga saloon; both were drunk, and Dugan was cursing the Mayor. When the officer arrested Dugan, Sullivan struck him with a brick. The fine was none too heavy for the offence.

LOST CHILD.—A few weeks since Mr. John Murphy, a carpenter and joiner of Toronto, started in company with his son, Peter Murphy, for this city. At Detroit they missed each other, and after a long search the father came on here thinking the boy might be here. About three weeks since, the boy arrived here, and is now in the care of Cook & McLaine, on Dearborn street, where he may be found by Mr. Murphy, should he be in the city.

NORTH'S NATIONAL THEATRE.—Miss Avonia Jones appears to-night for the first time in Sheridan Knowles great comedy "The Hunchback."

WATSON'S $10 SEWING MACHINES—ANOTHER INJUNCTION AGAINST THEM.—On the 3rd day of August inst., the United States Circuit Court for the Southern District of New York granted an injunction in a suit prosecuted by I. M. Singer & Co against Watson Wooster & Co. This injunction actually prohibits the defendants and their agents from making, using, selling or advertising for sale the Watson's $10 machines. Newspaper publishers will please to take notice of this injunction and not assist in violating it.

COMMERCIAL.

CHICAGO WHOLESALE MARKET.

OFFICE OF THE CHICAGO DAILY TRIBUNE,
Tuesday Evening, August 25, 1857.

Receipts of Grain are large, buyers of Wheat few, which together with a decline East in Flour and Wheat, and a firmness in Lake freights, caused quite a falling off in the rates of these articles to-day. The declining tendency of Wheat in the east, causes an anxiety to hurry forward this grain, and parties who had made heavy purchases of wheat for delivery the last half of this month, and others, took about all the propellors in the harbor to-day at 6c for wheat to Buffalo. The amount of Flour and Grain in store, August 22, as reported by the storehouses, was:

Wheat, Spring bu	47,736
" Red	15,516
" White	4,000
Flour, bbls	250
Corn, bu	131,965
Oats, bu	5,838

Shipments have been large since then, as well as receipts. We give sales and nominal rates as follows:

FREIGHTS.—The schrs M. Ballard, Cascade, Onward and Imperial get 5c on Corn to Buffalo, while half a dozen propellors were taken at 6c for Wheat to Buffalo. The schooner Gold Hunter gets 8c on corn to Ogdensburgh, and the propelor Young America takes 1,000 bbls flour to Ogdensburgh at 50c ℔ bbl, and 9,000 bu wheat to Montreal (all it could conveniently carry through the canals) at 15c per bu.

FLOUR.—Buyers are operating but sparingly for city trade, taking but 50@10 bbls where they took 50 some time since. Last night 170 bbls winter wheat flour sold at $5 87½ for shipment; to-day 100 bbls "Prairie" sold at $5,65 for shipment; 100 bbls "Augusta" mills at $6; to city bakers 30 bbls choice double extra white winter flour from South Bend sold at $7,50, and 30 bbls from red wheat at $6,75, on short time.

WHEAT.—The following is the present range of rates for the different grades:

Spring in store	1,00@1,01
Extra Spring do	1,02@1,03
Red, No. 2, do	1,05@1,06
Red, No. 1, do	1,08@1,10
White, No. 1, do	1,20@1,23

Actual sales were noted of a cargo of spring early in the morning at 1.00 on board Saturday; and on change 10,000 and 2,200 bu spring at 1.00 on board Saturday; 2,500 bu spring brought 1,06½ in store; a car load and 800 bu at 105 and 600 bu at 1.04 in store; afterwards, there being but few buyers, one dealer bought on change some 15,000 bu spring in lots at 1,00@1,01 and extra at 1,02@1,03 in store; a cargo of 10,000 bu spring was reported at 80c on board, last half October at seller's option; 2,000 bu No. 1 red sold at 1,15 in store; a car load do at 1,14, and 2,000 bu do at 1,12 in store; 3,000 bu No. 1 white in lots—one lot of 1,500 bu at 1,25 in store.

CORN.—Firm. Sales of 3,500 bu at 69c afloat; 7 car loads 68c in store; 13,500 at 70c and 15,000 bu at 70½c on board to day and a cargo at 70c on board Saturday; 71c generally asked on board to-day and 70c freely offered.

OATS.—Very dull at a decline. Sales of a car load in bags at 35c delivered; a car in bags at 34c on track; 375 bags at 33c do; 850 bu and 2,000 bu in bags at 30c; all for city, with a declining tendency.

Money Market.

OFFICE OF R. K. SWIFT, BROTHER & JOHNSTON,
Chicago, Aug. 25, 1857.

The Money market during the past week has been without animation and the demand for discounts moderate. Bankers have been discounting very sparingly upon local paper, but are taking short Eastern produce bills freely. Yesterday despatches were received in this city, saying that the Ohio Life and Trust Co., of Cincinnati had closed its doors in New York, and to-day it is reported to have done so in Cincinnati. There is also a report to-day stating that John Thompson of New York had closed, and some one or more stock operatives. We give the report, but cannot vouch for its correctness. There are no reasons given for the failure of the Ohio Trust Co., nor can we expect particulars for some days. There is some uneasiness in the market to know how far these failures in New York may extend but as the New York balances of Western Bankers are now so very low their losses must be light.

In the street the amount of paper offering is larger than for some weeks. Good Commercial paper is in good supply, and, secured paper is abundant; so that buyers have a better choice. Rates, however, continue without any material change.

Eastern Exchange continues very scarce and great difficulty is experienced in meeting the demand, which has been very large for the past few days. New York Exchange seems as scarce all over the West as in Chicago. Our advices from St. Louis quote Exchange scarce and currency plenty, and the same is the case all up the River to St. Paul. Buyers of Exchange have to submit to outside rates, and even then bankers are slow to sell.

The demand for Coin has been brisk for the past few days, and stocks are not heavy, most parties having larger supplies have shipped East to make Exchange.

Currency is in large supply, and every inconvertible, and country bankers had better prepare for redemption before the season gets too late, as there will be heavy drafts made on them this Winter.

Land Warrants are very dull; buying rates are a shade lower, but we do not alter quotations.

Our advices from New York quote stocks lower and still falling. Missouri 6s are quoted at 77¾; Michigan Southern R R has touched 23. Money very scarce and can hardly be obtained on call.

Foreign Exchange firm and in demand.

The Ohio Life Insurance & Trust Co.

CINCINNATI, Aug. 25.

The liabilities of the Ohio Life Insurance and Trust Company, are estimated at from $5,000,000 to $7,000,000. About $700,000 of checks paid out by the New York agency on Saturday and Monday, are unpaid.

Messrs. Brown Bros. & Co., and others have placed an attachment upon the assets of the company in a foreign corporation, and the sheriff and his deputies are in charge of the office and property. The immediate embarrassment of this company arose, we understand, from its inability to meet loans made by it of some banking house in the street.

The proceeds of these loans had been used in sustaining Western Railroad Companies, one of which was to have received an advance exceeding half a million dollars. The President states in a card, that the capital of the company $2,000,000, is sound and reliable, exclusive of such losses as may arise from the insufficiency of securities for loans made by the company.

LATER.

Attachments to the amount of over $1,800,000 against the Ohio Life Insurance and Trust Company, have been issued to day. The Branch Office of the company in this city is now in possession of the Sheriff. Some of the principal attachments are on behalf of the American Exchange Bank $447,000; Ocean Bank, $140,000; Brown Bros., & Co., $100,000. There are a large number of others for smaller amounts. The advances to the Cleveland and Pittsburgh R. R., are mentioned as among the most important made by the company.

Explosion of Dupont's Powder Mill at Wilmington, Del.

WILMINGTON, August, 23, 1857.

A terrible explosion occurred here on Saturday. Alexis L. Dupont, assisted by seven workmen, was removing a large and heavy box from a building which had been used since 1812 as a powder house. The box coming in contact with the wall caused friction, producing fire, and an explosion followed, burning all hands in a shocking manner. Mr. Dupont leaped into a race near by, and the others made every effort to extinguish the fire on their clothes. Mr. Dupont having succeeded in extinguishing the fire on his clothes, hastened to see if the press roof had caught fire. As he approached a terrible explosion took place, shattering the building to atoms. By the flying fragments Mr. Dupont had his right thigh fractured, three of his ribs broken, and one of his lungs perforated. He was found among the ruins, and when taken up, gave directions to the persons present to hasten and extinguish the flames.

To-day (Sunday) at five o'clock, Mr. Dupont, Anthony Dougherty, and Edward Hurst, the foreman of the mill, were dead.

Louis Vache was mortally wounded, and John McClaferty and George Fisher were injured, but not fatally. The others escaped unhurt.

From Washington.

WASHINGTON, Aug. 26.

Hon. Richard K. Meade, Minister Rio Janeiro, will leave next month for Brazil. His instructions which are now being prepared, are very important and relate to the negotiation of a new commercial treaty, and the reduction of the rate of high Brazillian Tariff.

Mr. Ranney, of N. C., will be appointed Secretary of Legation to Brazil.

From Minnesota.

DUBUQUE, Aug. 25.

St. Paul dates to the 21st are received.

The compromise in the Constitutional Convention progresses slowly. Some points of difference have been harmonized, but there are others more prominent, such as the apportionment and universal suffrage, upon which it is thought that the Conventions will fail to agree The Republicans, to avoid anarchy and confusion, favor the submission of but one constitution to the people, while the Democrats will insist on the submission of both as best subserving the interests of the people. On the whole it is doubtful whether the constitutions, which are now enrolled and completed, will be blended into one. It is probable, however, that the two conventions will unite on one day on which to submit the constitutions to the popular vote.

The crops of Minnesota, notwithstanding the ravages of the grasshoppers, were never so abundant as they are the present year.

Storm in N. Y. City on Sunday.

NEW YORK, Aug. 25.

The city and neighborhood were visited, about five o'clock yesterday afternoon, by a terrific storm of hail and wind. It came and passed away suddenly. Awnings, swing signs, trees, half-open doors, and unfortunate pedestrians, were roughly dealt with. A small sail boat, containing two men and a woman, was capsized in the East River, about midway, on the track of the South Ferry boats. The occupants were pitched into the water, of course, but managed to maintain their grasp of the wreck until rescued by some sailors attached to a schooner on the Brooklyn side, who immediately put out to their rescue in the schooner's yawl. The sufferers, greatly exhausted, were taken on board the schooner, and soon afterwards left for their home. We did not learn their names. This, so far as we have learned, is the only accident resulting.

There was a heavy gale from the south-east on Saturday afternoon, which came up very suddenly. Some fifty vessels, large and small, from below the Narrows and from far outside Sandy Hook, and made all haste to get into the Horseshoe, where the rode it out in safety. *Times Monday.*

CHANCERY NOTICE.

STATE OF ILLINOIS, County of Cook.—ss.
Cook County Circuit Court,
November Term, 1857.

Albert J. Averill vs. Thomas M. Janes, John J. Hollister, Abby K. Hollister, Samuel Strong and Marion A. Strong, wife of the said Samuel Strong, and the unknown heirs of William Hollister, deceased.—In Chancery.

AFFIDAVIT OF THE NON-RESIDENCE of all the above named defendants having been filed in the office of the Clerk of said Cook County Circuit Court, notice is hereby given to them, that Albert J. Averill, complainant, filed his bill in said Court, on the Chancery side thereof, on the twenty-fifth day of August, A. D. 1857, and that a summons thereupon issued out of said Court against said defendants, returnable on the third Monday of November next, 1857, as is by law required.

Now, unless you, the said Thomas M. Janes, John J. Hollister, Abby K. Sales by Auction.

Auction Sale of Lands at Lake Forest.

ON WEDNESDAY, THE 10TH DAY OF AUGUST instant, at 10 o'clock A. M., the subscribers will offer for sale at auction, at the office of J. A. Marshall, No. 16 Dearborn street, Chicago, 400 acres of choice improved Land, adjoining the town plat of Lake Forest, on the west side of the Milwaukee Railroad.

These lands being of the first quality for grass, fruit, pasturage and general agricultural purposes, and divided into 10 acre Lots, will afford opportunity for making the most valuable appendage to town property at Lake Forest.

Maps and descriptions of the Lots and sub-divisions, from recent actual survey, will be exhibited at the time and place of sale, and an unquestioned title made to purchasers.

TERMS.—¼ cash; balance in 1, 2 and 3 years, with 6 per cent. interest payable annually, secured on the property.

A few village lots will be sold at the same time and place.

GREAT AUCTION SALE.

ONE HUNDRED THOUSAND DOLLARS' worth first class Suburban Real Estate for sale on ten years' time, with 8 per cent. interest—the interest only to be paid each year, and the principal at the expiration of 10 years.

Will be sold on TUESDAY, AUGUST 25, 1857, 75 One Acre Lots and 24 Two-and-a-Half Acre Lots, being subdivision of the north half of the north half of the north-west quarter and west half of the north-east quarter Section 15, Township 38, North Range 14, East 3d P. M., being within half a mile east of the junction of the Michigan Southern and Rock Island Railroads, and three-quarters of a mile west from Hyde Park.

The west end of this property is within twenty rods of one of the stopping places on the Michigan Southern Railroad, the whole within ten or fifteen minutes' ride by Railroad of the centre of business, or half an hour's ride with a horse and buggy.

This sale presents extraordinary inducements for persons who wish to buy for a residence or for speculation, as the payments are very small—only 8 per cent. on the price of the amount purchased. For instance, if a person buys lots enough to amount to one thousand dollars, his cash payment would only be eighty dollars, thus placing it in the power of all to purchase a lot. This presents a rare chance for mechanics and laboring men to buy for themselves and families a home. It also presents a good opportunity to young men in stores and offices to possess themselves of property that will, in a few years, be worth double, and, in all probability, treble the amount they will pay for at this sale. The sale will be positive and without reservation, as the property must be sold. Persons in the country who wish to invest a small amount of money in Chicago property, cannot do better than attend this sale.

A special train of cars will leave the Michigan Southern and Rock Island Railroad depot at 2½ o'clock in the afternoon of the 25th inst., to convey persons (free of charge) who wish to attend this sale. Those wishing to attend the sale will please be at the depot at 2¼ o'clock.

DAILY TRIBUNE.

No. 51 CLARK STREET.

CITY OF CHICAGO.

Wednesday Morning........Aug. 26, 1857

The Junior of the "Times."

We sincerely trust that the junior editor of the *Times* will not attribute any malice to us in again attracting public attention toward him. If we are reluctantly compelled to invest the little man with a seeming importance, we would not have him think we could so far insult his understanding as to suppose he ever mistrusted he deserved it. To no malevolence of ours, but rather to his own imprudence, must he look for his present unhappy position.

Did we harbor any unkind feelings toward Mr. CAMERON, we might dwell with malignant pleasure upon several portions of his past history; but so far from doing so, we are really rejoiced that it was not so much any comments of ours, as his own unfortunate infirmities, that have rendered him ridiculous. We flatter ourselves that in our strictures upon his articles we were more charitable than otherwise, and when truth would have been cruel, lenient censure such as ours rather entitles us to his gratitude than his indignation.

The junior editor, as is usual with inexperienced writers, has allowed his loss of temper to painfully impose upon his gentle intellect and naturally harmless disposition. Unwilling to cause any needless suffering, we are troubled with a consciousness of having occasioned the young man those agonizing throbs which must have engendered his articles. It is a pity that he allows himself to write in such an agitated frame of mind. He should deal more tenderly with his delicate constitution. The Junior's intentions, however were most excellent and he doubtless meant to do the Baptists a kindness. We trust therefore that the gentlemen of that denomination will pardon, in consideration of the goodness of his motives, a lack of judgment which has led him unconsciously to expose them to the disagreeable imputation of his friendship. Urged on by his angry passions the excited tyro, with a bewildered fierceness which, if it did not amuse might possibly alarm us, applies some very devastating expressions to the editors of the TRIBUNE. Should we not reply to these elegant extracts, which, in view of his being a special advocate of decorum, he brandishes with so much grace, the public will please refer our silence to annihilation. But in justice to Mr. Cameron we must not forget to place upon record his honest confession of guilt and promised repentance in this respect. He says in his last that he "will cease to bandy epithets hereafter." His readers will hail with pleasure this distant and inchoate gleam of the gentleman. Mr. Cameron's usual style of the severe may have been in the olden time, exceedingly pungent and iambic but it must be confessed that a constant repetition of it at Billingsgate and elsewhere has taken somewhat from the delicacy of its edge. We advise, however, that this admirable reform be carried on with caution. Let it be brought about, not abruptly, but by degrees. There would be danger in a too violent innovation upon his nature by the sudden use of decent language.

The rhetoric of rowdyism is so congenial to his tastes, so adapted to his attainments that he will doubtless find it very inconvenient to abandon it. He will, of course feel embarrassed by the *mauvais honte* of first introduction, in his endeavor to cultivate the acquaintance of respectable adjectives. But let him persevere. Should he succeed, though he may never be very dangerous except to those whom he defends, he will at least command respect when ever he succeeds in attracting attention.

In his article of yesterday, Mr. CAMERON says: "It will not be surprising to learn that "the very name (Baptist) is seized upon and "applied as a term of reproach." It is not in the least surprising that Mr. C. should have confused the reproach with the thing reproached. It is only a transposition of terms.

The American Association for the Advancement of Science.

The eleventh annual meeting of this body was closed at Montreal on Wednesday evening last with appropriate ceremonies. This session of the Association has been one of the most interesting and profitable ever held. The papers read in the various sections have indicated careful study and preparation in all the departments of scientific attainment, and what is more to the purpose, a design on the part of the members, to establish for the Association, a distinctive character in the world of science. We have several papers of general interest, from the later proceedings of the Association, which will appear in the TRIBUNE to-morrow.

A Question for the Supreme Court.

The Decatur *Chronicle* argues from the silence of the Amalgamationists on the subject of the Chicago *Times* Galesburg nigger baby, that they are studying the Dred Scott decision to see if it has any rights which they are bound to respect.

IMPORTANT INVENTION.—The New York *Times* states that a new method of laying the superstructure of railroads, has been introduced upon the Erie Railroad, about twelve miles from Jersey City. The repairs to the ties, spiking, and other portions of railroad superstructure, form a large proportion of the current expenses, and moreover the materials require replacing every few years. The Erie Co. are therefore trying the experiment of a cast iron superstructure. It requires no bolts or spikes of any kind; and besides the advantage of durability, it is said it may be taken from the furnace and adjusted upon the road, with less labor and expense than is usually required to lay the ordinary wooden sleepers. The iron casting is embodied in the ground on stone, or a similar solid foundation, where it is secure from frost and other disturbing causes. The rail rests upon India Rubber springs, which deaden the noise of a train, and at the same time ease off these heavy blows and shocks of the engines and cars while running, thus diminishing their wear and tear.

NIAGARA SHIP CANAL.—A fresh move is to be made on the subject of constructing a Ship Canal around Niagara Falls on the American side. The Commissioners named in the act incorporating the Niagara Ship Canal Co., Messrs. Simeon Draper of New York; Calvin Hotchkiss and James Van Clive, of Lewiston; and John Fish, of Niagara City, are to meet on the 25th inst., at the Monteagle House, for the purpose of re-opening the books for subscription to the capital stock of said Canal. The Directors are also to meet at the same time and place to organize under the act.

MAIL FROM INDEPENDENCE, MO., TO SALT LAKE CITY.—The Baltimore *Sun*, of Thursday learns that the Post Master General has contracted with Mr. S. B. Miles, of Pennsylvania, to carry the United States mail monthly from Independence, Mo., to Salt Lake City, in Utah Territory, at the rate of $32,000 per annum. The service is to begin on or before the 1st of October next. Mr. Miles was formerly a mail contractor in Maryland and Pennsylvania, but for the past two years has been performing the same service in Kansas and Nebraska.

IMPORTANT DECISION.—The Supreme Court of Massachusetts has lately decided that the bond of an officer of a corporation becomes void at the expiration of his term of office, even if he is re-elected. A new bond should be filed, as the sureties of the old one are no longer bound. This decision will invalidate the bonds of the officers of many corporations, both private and municipal.

SERIOUS MISTAKE.—The Pontiac *Gazette* says that Charles Parsons, on Monday last, through mistake, took quite a large dose of Sugar of Lead, supposing it to be Epsom Salts. By an opportune administration of mustard, his life was saved. People cannot be too careful in examining any medicines they have in their houses before administering it to themselves.

Belles Lettres in Iroquois County.

The Democracy have a jewel in the editor of the Middleport *Press*. The following are among his last weeks contributions to the classics:

All the holy horror of Henry Ward Beecher whilst entertaining his [illegible] woman hearers with a cock-and-bull story of southern slavery, is but a [illegible] compared to the [illegible] on fanaticism in that [illegible] sheet of the 13th. It is exceedingly ridiculous to hear a man whose mind is enslaved by prejudice, bigotry and superstition, lecture upon the slavery of the body, and it is equally as absurd to read a sermon on lunacy from the pen of a lunatic, who is just ready to don the straight-jacket. This is but a [illegible] phase of that hydra-headed monster, Abolitionism.

A man who would steal editorial from the Tribune, would rob his mother's corpse of its winding sheet.

The King of all nations will one day render a true verdict against you. No hood-winking him.

[illegible]

Every one recollects the bombardment of Greytown—the military master-piece of the late Mr. PIERCE. Some riotous native flung a bottle at the nose of BORLAND. Straightway all the "Brigadier" of the President is up in arms and eager for the fray. He swore his terrible Mexican oath that he would raze their palaces and sow salt upon their foundations. It recalled the case of GEORGE IV, in the Royal Theatre, Dublin. Some fighting Irishman unknown to GEORGE flung a bottle at the royal proboscis. The outraged government commenced a series of prosecutions against every man who had a bottle, or was ever likely to come into the possession of a bottle. The Seven Angels who held the Seven Vials narrowly escaped indictment. So with PIERCE. The war had begun. The last breeze from the "saffron skies of Granada" brought the resounding crash of bottles. HOLLINS was put in commission,—the sloop-of-war *Cyane* under Cabinet instruction. MARCY draws and PIERCE signs the ultimatum. The village principality stands at bay. The Model Republic and the Mayoralty meet. We quote the mortal issue from official records "bravery and alacrity of the troops, admirable—killed, none—wounded, none—frightened, none—canes, cocoas, and bamboos damaged."

It was thought that this would prove the *chef d'œuvre* of modern Democratic wars. But Gen. WALKER's martial exploits before Lawrence have stripped the last remaining laurel from the brow of the retired President. The cause of this celebrated seige is unique. Lawrence was troubled with a superfluity of dirt and an unnecessary abundance of dead curs. The citizens had treasonable antipathies to dirt and dogs. The rebels call a town meeting to consider the condition of the streets and the propriety of removing the defunct canines. This flagrant attempt to overawe the Territorial government could not escape the vigilant ROBERT. He issued that proclamation—that great proclamation. It was peculiarly pathetic and perilous. The revolutionists are instructed, as they love their country and their lives; as they respect the constitution and the dragoons, to drop the village revolt, and return to their allegiance and the old grade. The committee on alleys was treasonable and the dog ordinance a rebellion against the "Organic act. The water cart was declared contraband of war and the U. S. army commanded to arrest the city scavenger.

This *coup d' etat* of a bellicose civilian to enforce the bogus laws of the "Government" was one of the finest burlesques ever performed on any stage. The wry faces of this Governor at his indicrous failure have almost harlequined the public into a good humor with him. The folly of this movement seemed indigenous in the man, so impromptu and original was its luxuriance. Its absurdity was so *naive*—its nonsense so pastoral. There was a freshness of blunder—a felicity of *faux pas* in it worthy a political Malaprop. The Governor ran riot in the conceit of his technical treason—idolized his quibble of a rebellion. His proclamation will be "laughter for a month, and a good jest forever." Though this role of ambitious tricksters, sacredly guarding the Constitution and the Union at a handsome salary, has for some years back ceased to draw in the States, Gov. Walker hopes by resuming the play before provincial audiences to establish a serio-comic histrionic reputation that will throw the gyrations of the Little Giant entirely into the shade and place him at the "head of the profession" among the Harlequins of the next Democratic National Convention.

Walker is however a round oily talker. He has a smooth full speech, flavorous with flatteries and unctuous with promises. His addresses abound in an eloquent emptiness, a dextrous impudence and a silken felt-footed rascality. Every fair proposition is defeated by the proviso of some strategical semicolon—every honest principle betrayed by the deftly concerted ambuscade of some parenthesis. The man will break his word with as much parade of patriotism as old Gen. Cass broke his sword. He will cry out against acts of his own connivance with as much virtuous indignation as old JACK FALSTAFF cried out against all cowards. In all his inaugurals, dispatches and messages he is constantly pledging himself to submit the Constitution of Kansas to a vote of the people. He pours this promise into the public ear with the sweetest accent. He dallys and pets, strokes and fondles the very words. This Democratic wildcat, the political red-dog, engraved upon the silkiest paper, surmounted by the vignette of a splendid spread eagle, is thrown upon the market with the prodigality and generous confidence of a Georgia swindle. It is not worth the time taken to read it. It is not intended to be redeemed. WALKER has no idea of honoring this draft upon his honesty and good faith, but every effort will be made to deceive and defraud the people of Kansas through the shin-plaster currency.

The people of Kansas have not been schooled in a three years' struggle for their liberties without learning politics. They know all the Border Ruffian dodges by heart. The rudiments of slave-breeding science which they they have not already acquired, it would be useless for us to attempt to teach them. Strategy will no longer avail with such thorough tacticians. There is now just one way to make a Slave State of Kansas, and that is to exterminate its citizens. BUCHANAN has lately announced his purpose to do certain things having a reference to this Territory, "with the help of God." We shall see whether this enterprise is one of the things had in view—also whether the Divine blessing and assistance accompanies the patriotic design.

As for WALKER, he is the least fearful "wild fowl" on the continent. The Governorship of Kansas, in its capacity of Minotaur of Democracy, has done his job thoroughly. It swallowed his three predecessors out of sight and has now taken into its melancholy maw the Hon. ROBERT. He is getting out of the way of the other Presidential aspirants with most gratifying celerity. The siege of Lawrence is such a climax of military and political burlesque that the Governor of Kansas occupies to-day the position of a national buffoon. His worst enemy could not make him more ridiculous than he persists in making himself.

Destructive Fire at St. Paul.

[From the Minnesotian, 19th.]

Last night, about eleven o'clock, another fire broke out near the corner of Fourth and Roberts street, nearly as disastrous in the issue as the one of a fortnight since.

It originated from incendiarism, it is said, in the rear of the Florence Saloon, which is one of a row of frames covering the whole square, on these streets. In a few minutes it had spread so rapidly that ere the alarm bells had summoned the citizens to the scene several buildings were in flames.

The following is a list of the sufferers:

N. Schwartzenburg, Clothing Store on the corner, two story frame—lost most of the stock. Florence Saloon, John Huckbeamill.er—fixtures, &c., all destroyed. Barber Shop of Charles Stolz—fixtures all destroyed. Boarding House of ——, furniture mostly burnt. R. G. Sharpe's Hardware Store. Mr. S's. loss will be very heavy—probably several thousand dollars—and, we believe, no insurance. But little was saved. The building was owned by Gov. Ramsey. Sedam & Wagner's Bakery—loss small, in stock. Mr. Charles Bergfelt's Stove and Tin Store—Mr. B. had a large stock, which was a total loss. The Roberts St. House. This structure, owned by I. Bidwell, was vacated before the flames reached it, and torn down; this stayed the devouring element's march in that direction. A small frame house, owned, we were told, by Willoughby & Powers. It was on Fourth street, and was consumed. The St. Louis Exchange, kept by Dan Kelly, was slightly injured.

We cannot now form an estimate of the loss, as we were unable to see any of the persons burned out.

CAIRO NEWS.

[From the Cairo Times and Delta, Aug. 19.]

Wanted immediately at this office, a decent, sober Printer, to take the foremanship of this office. Good wages and a permanent situation guaranteed. One who understands the business preferred. No man who drinks over two gallons of whisky per day need apply.

James G. W. Jonathan Peck still continues to serve his customers those fine lunches every day at 10 o'clock. Littlefield and Johnny serve the drinks.

It may not be but it should be generally known, that Mr. John Strashal, at the Arcade, keeps a splendid assortment of liquors, and the necessary et ceteras, at his establishment. He has also a fine Billiard Table where those who are fond of the "science of angles" can amuse themselves. John is a clever gentleman and deserves patronage.

Last Friday the Young America received two billiard tables, and put them in order for the benefit of the public. They were kept "running" all day at 2.40 pace, and for aught we know will be kept "going" at the same rate, the balance of the year. Tom Porter dispenses the fluids.

A woman was arrested last week for infringing upon the patent of the male sex, by publicly wearing breeches, and, as we are informed, getting drunk, smoking cigars and otherwise raising the devil generally.

AFFRAY.—Last Monday an affray occurred between Mr. W. A. D. Finch, and Mr. G. P. Garner, in which the latter was shot by the former. The circumstances which brought about the difficulty are confusing, do not we consider it worth while to relate them. The matter will undergo legal investigation.

Mr. Garner's wound is not considered dangerous, it being only a flesh wound, the ball entering on the left side, and lodging under the back bone.

Trial of Gov. Robinson.

[Correspondence of the St. Louis Democrat.]

LAWRENCE, Aug. 20, 1857.

On the 30th of March, 1856, the territory was smitten with a plague of border ruffians, who left their devastating footprints at the polls and on the legislature of Kansas. The squatters were outvoted at every precinct excepting alone Manhattan, whose distance from Missouri saved it from the human vermin who were expected from that State. The men whom they elected passed a code of laws for the people of Kansas. The character of those enactments is too well known to require description. They were a faithful picture of the intellects of the leprous ruffians who enacted them.

The people resolved to take the preliminary measures for the formation of a State constitution and government. Michigan and California were their precedents.

They called a constitutional convention. It framed the famous Topeka Constitution and transmitted it to Congress. It organized, also, a State government. Officers were elected under it, in order that it might be put in motion without delay, if Congress accepted the constitution.

Gov. Robinson was tried on Monday, Tuesday and Wednesday, for the misdemeanor known as usurpation of office.

That office was Governor of the *State* of Kansas. Now, there is no such office recognized by the bogus laws. They no where speak of a State. It is the Territory of Kansas. To try a man for an offence which the laws do not recognize, is one of the anomalies of Kansas jurisprudence.

A jury was empannelled. Mr. Parrott, counsel for Gov. Robinson, challenged the array.

The law requires that the jury shall be equally selected from every part of the district. These men were all residents of Lecompton.

The most ultra pro-slavery men had been selected. Sheriff Jones was the first man called.

The Judge, Cato, (the bogus) overruled Mr. Parrott's challenge. The counsel took exception.

The jury was packed and the case proceeded.

The indictment was read. Gov. Robinson plead not guilty.

Mr. Wier argued that as the limits of the "State of Kansas" corresponded with the boundaries of the Territory of Kansas, it was to be presumed that any legislature which passed laws for the State assumed jurisdiction over the territory, and that any man elected as Governor of the State intended to usurp the office of Governor of the Territory.

I have already given the argument of the defense.

The only witness who appeared was J. M. Tuton, a renegade Free State man. Mr. Tuton is a native or an emigrant from Missouri. He was elected a member of the Constitutional Convention. He was elected a representative, also, in the State legislature. He was elected as a black law man. He was an officer in the Wakarusa war. He is a clergyman. He made one speech, I remember, in the Constitutional Convention on the expediency of permitting colored people to emigrate to Kansas, in which he used the memorable expression, "I don't want any black buck niggers, Mr. President, a trampin' over my grave!" This seemed to be his chief argument in favor of excluding free blacks. He "fell from grace" last summer and became very obnoxious to his former friends. He has lived chiefly in Lecompton since his apostacy. The Pro-Slavery people have employed him as a spy—to make arrests of Free State men—and as a jailor of political prisoners. He was caught by some boys a few months ago, stripped nearly naked, whipped, and tarred and feathered.

He testified that Gov. Robinson had taken the oath of office. He said that the legislature had passed a bill defining the salaries of officers and stated that the Governor had signed it.

On cross examination he could not swear that the Governor had signed it. He had not seen him sign it. His evidence on this point was therefore objected to. Judge Cato overruled the objection! Did you ever hear of such ruling outside of Kansas?

The witness stated also, that the understanding in the constitutional convention was that the State government should not go into operation until Kansas was admitted into the Union under the Topeka Constitution.

Mr. Geo. W. Brown, editor of the *Herald of Freedom*, was a witness for the prosecution, but his evidence was not produced.

The defence called no witnesses. Tuton had testified to the fact that they wished to establish. He had sworn that there was no design to set the government in operation until the State was admitted into the Union.

Judge Cato's charge to the jury is said to be a remarkable document. He told them that if they found that Robinson had usurped the office of Governor of the State of Kansas, to find him guilty.

The jury retired and were in session all night. It is now nine o'clock on Thursday morning.

A report from Lecompton states that the jury stands six for conviction and six for acquittal.

The penalty for the offence is imprisonment for any time under a year, and a fine of any sum under five hundred dollars.

Governor Robinson, if convicted, will refuse to pay.

Horrible Scene in India—Blowing the Mutineers from Guns.

PESHAWUR, June 14.

A force of Europeans with guns was sent round the fort, one of which Meerdan, was held by the 55th native infantry, in open mutiny; they tried to escape when our force appeared, and some got off to Swat, the others were made prisoners; 150 were killed on the spot, 9 tried by drumhead court-martial and instantly shot, including a native officer of a regiment not in mutiny, who would not act as he was ordered. Others were driven into the hills and killed by hillmen, a price of 10 rupees being set on their heads. The colonel of this regiment blew out his brains in disgust at the mutiny. The villains kept their officers in confinement, and told them if they tried to escape they would roast them alive. They did, however, manage to escape. The force then went and disarmed all the other regiments in the forts and quieted the district.

Some of the 300 prisoners of the 55th have been tried, and we blew forty of them away from our guns in the presence of the whole force three days ago—a fearful but necessary example, which has struck terror into their souls. Three sides of a square were formed, ten guns pointed outwards, the sentence of the court was read, a prisoner bound to each gun, the signal was given, and the salvo fired. Such a scene I hope never again to witness—human trunks, heads, legs, arms, &c., flung about in all directions. All met their fate with firmness but two, who would not be tied up; so, to save time, they were dropped to the ground and their brains blown out by musketry.

THE EXECUTIONS AT FEROZEPORE.

FEROZEPORE, June 13th.—This morning were executed twelve of the mutineers of the late 45th Regiment Native Infantry. Lieutenant Hoggan, by order of Brigadier Innes, read out the proceedings of the general court martial which tried the mutineers, and the sentence awarded them, to the troops and establishments. He then informed the mutineers that if any would become Queen's evidence, the brigadier would reprieve them. I believe twelve accepted the offer, and were marched to the rear of the artillery. They stated their willingness to inform upon the ringleaders, and to divulge secrets, to show whence the mutiny originated, and with what view.

Of the remaining twelve, two (one being a man with an amputated arm) were taken to the gallows. These ascended the latter with firm steps, and never betrayed any emotions of fear. On gaining the platform they adjusted their nooses with their hands; their eyes were then bandaged, and their arms pinioned. Another second, and they were launched into eternity. Death was instantaneous with one, but the one armed culprit lingered out for a considerable time, as the knot slipped under his chin. The hangman had to readjust the knot, and giving him another drop, the throes of the body rapidly ceased, and the vital spark soon became extict.

The other ten mutineers were led away to the artillery guns, but while their irons were being struck off, some cried out, "Do not sacrifice the innocent for the guilty." Two others, "Hold your snivelling—die men and not cowards; you defended your religion, why then do you crave your lives? Sahibs! they are not sahibs, they are dogs." Some more began to upbraid their commanding officer. "He released the havildar major, who was the chief of the rebels." The ten men were fastened to the muzzles of the ten guns, which were charged with blank cartridge. The commanding officer directed port fires to be lit. "Ready! Fire!" and the drama was played out. The scene and stench were overpowering; I felt myself terribly convulsed, and could observe that the numerous native spectators were awe-stricken; that they not only trembled like aspen leaves, but also changed into unnatural hues. Precaution was not taken to remove the sponge and loadmen from near the muzzles of the guns; the consequence was, that they were greatly bespattered with blood, and one man received a strong blow from an arm.

TICKET SWINDLING IN NEW YORK.—The *Times* contains the particulars of an outrageous series of swindles perpetrated upon an intelligent young lady, who, on Thursday last, started by the Central America for California. Miss Doughty was going to meet her lover in California—and immediately be married. Her landlord, she avers, overcharged her for her board, and took her to a swindling ticket office, where she paid $80 more for a steerage berth than the price of a first class berth in the cabin.

THE IOWA REGULATORS IN TROUBLE.—On Monday last, warrants were issued for the arrest of seven citizens of Cedar county, charged with participating with the "Regulators" in their late lawless operations. They delivered themselves up, and gave bail for their appearance at the next term of the District Court. We presume, however, that the whole thing is a judicial farce. They will no doubt be acquitted on trial—not for the want of evidence as to the truthfulness of the charge, but because of the peculiar views of a Cedar county ury.

PROPERTY VALUATION IN BOSTON.—The valuation of property in Boston for 1857 is as follows:

Real Estate	[illegible]
Personal	[illegible]
Total	[illegible]

The increase in real estate from last year is $6,327,000, or 8 7-10 per cent, and in personal estate $3,144,200, or 3 [illegible] per cent. The rate of taxation is 9.30 per $1,000.

[Special Dispatch to the Philadelphia Bulletin.]

HOLLIDAYSBURGH, Aug. 21, 1857.

This is the day set apart by the Executive for the execution of David Stringer McKim, convicted in May last of the murder of Samuel T. Norcross. Last night people from a distance came into the town, and so great was the rush that beds could not be procured at the hotels, and many were compelled to lie upon floors, tables and chairs.

This morning a stream of humanity commenced pouring into the town at a very early hour, and nothing was talked about or thought of but the condemned and his approaching end. Business is almost entirely suspended here.

The Sheriff was beset yesterday and this morning by persons who were anxious to get within the prison walls to witness the last dread scene, but very few out of the immense throng were gratified in their wish to be allowed to enter the enclosure, and the disappointed multitude had to rest contented with gazing at the prison walls, or in picking up such scraps of information from within doors as were retailed outside.

All sorts of rumors were in circulation during the morning, and those who went out of the prison doors during the forenoon were eagerly questioned by the crowd to know what the condemned was saying and doing, and, above all, to ascertain whether he had made any confession.

McKim slept soundly during the greater part of last night. At 6 o'clock this morning he attempted to commit suicide by opening a vein in his wrist with a piece of glass. The blood flowed freely for a while, but it was discovered in time to prevent serious results, and the wound was immediately bound up. A close watch was then set over the condemned wretch to prevent a second attempt of the same kind.

Neither the awful position of the condemned, his attempted suicide, nor his being foiled in the attempt to destroy himself, affected his appetite, for he ate a hearty breakfast.

Great calculations were made on the manuscript statement which the condemned had prepared for the purpose of reading under the gallows, and many thought that in it would be found an admission of his guilt, but this expectation was disappointed this morning when it was announced that McKim had destroyed the paper he had prepared. It seems that in a fit of rage he tore the "statement" to pieces.

The report of the attempted suicide of the murderer, and of his having torn the much talked of paper to pieces, created an immense sensation out of doors, and the excitement went up to fever heat.

At 10 1 2 o'clock the condemned man was led out of the prison to the gallows. After mounting the scaffold, McKim proceeded to address the assembled crowd, and he spoke for one hour and five minutes. He denied his guilt most vehemently, and said that he declared before God and with his last breath that he died an innocent man.

McKim said that he had neither either committed murder nor stolen money nor anything else. He also said that Atticks Fleck and another witness had sworn away his life on his trial.

At 12.35 o'clock, Sheriff Fort pulled the drop, and the wretched criminal was launched into eternity, declaring his innocence until the last moment.

There were three military companies on duty around the jail, and notwithstanding the immense crowds in the town, everything passed off quietly.

After the body is cut down, it will be handed over to the relatives of the malefactor, who have had prepared a handsome coffin for its reception.

HIS SPEECH DECLARING HIS INNOCENCE.

We give a few extracts from the Pittsburgh *Chronicle's* report:

After ascending the scaffold the prisoner surveyed the spectators, partook of a glass of water, and then addressed them thus:

Friends and Fellow citizens: I have stepped here on this scaffold to-day, to be executed for the murder of Samuel Townsend Norcross. I stand before you as a murderer, but if I am condemned by the law, that don't make me guilty before God, whom I will, in a few moments, be called upon to meet. I say before you all, as a man and a true American citizen, that I have been wronged—wronged out of my life by my fellow men, in the court house of Blair county. You know what they have done. In a few moments more, those whom I will name will have taken my life. They have sworn falsely—those who I mean I will name. [He named several, specified wherein they had, according to his story, been guilty of falsehood, and hoped that God would forgive and bless them.] * * * I am a true American citizen; I will stand by the truth; I will not haul down my colors to wrong. No sir. I would rather die with this rope around my neck, I fear not death. I have a better hope. Let me tell you, gentlemen, I will never, never give up to wrong. In a few moments I must either go up to Heaven or down to Hell; I know that I must, and every one knows.

I don't blame you for believing me guilty; you couldn't do anything else. I was born in Chester county, Penn., near the forty-eight mile stone. What will my poor mother say! It would have been better for me if I had never been born. Those who have put this rope around my neck are the murderers.

I don't stand in the eyes of God as a murderer. I tell you, as a dying man, that I am not the murderer of Norcross. I have been in the service of my country; I have been wounded for my country; I have bled for it, and have passed through dangers, and have pressed forward to the muzzle of the cannon, and have planted the flag with honor there; and I am here to die for nothing. It would have been better if I had been shot. I know that I aint a murderer. I tell you I have been in the service of the United States, and have fought and bled and seen dangers, and here is the last of it. I have to die this dishonorable death. You can send to Washington and see if what I say is not true. I was promoted to drill sergeant. I was with General Winfield Scott, Gens. Harney, Taylor and others. I served under them, and they all know me to be a man who would not kill another as young Norcross was, by beating out his brains with a club, on the railroad. I believe the Bible; I was taught to read it. My poor, aged mother taught me to pray, and I always prayed at night. I was not a Christian, I did not profess to be a Christian, but I always prayed.

God don't want me to tell a lie here. Mark my words, that you will get some other man that murdered Norcross, and then you will see that I am not guilty of the murder. I will stand by the laws of my country; I think they ought to be obeyed; when a man kills another he deserves hanging, and I go in for it. I was not able to prove everything; many things I couldn't account for when those witnesses swore everything against me.

The closing religious services were gone through with, when McKim intimated that he had something more to say; the request being granted, he continued:

I die an innocent man. I am just on the pinnacle of death. You can believe me, when you see me just on the point of death, with a rope on my neck; I tell you this as a dying man; a lie would damn me. Were I to tell you a lie now, I know I should be tormented with fire and brimstone forever, [illegible] ever. Can you think I would say this if I was guilty. No, you cannot. I feel that, as soon as the breath leaves this body, I shall go home to God. I hope to meet my wife and child in Heaven. I leave them in the care of Heaven.

Another Chapter of Detroit Morals.

Detroit is becoming notorious. The *Advertiser* of the 24th inst. relates the following:

The guilty object of the present sketch has for some time been engaged in business on one of the principal avenues of this city, and moves in the most respectable circles of society, and his victim, a young lady of the city, was well known and beloved by all who knew her.—About two years ago, they met by accident at the store of the former, and from this sprang up an intimacy, which finally resulted in the seduction of the lady, who, placing her confidence in him, yielded herself to his embraces, soothed in her hour of grief by his promises—acted if not spoken—of marriage and future happiness. How much the poor girl suffered, no one can know, except the All Seeing Eye;—for in the bitterness of her mental agony, she concealed in her own breast all her sorrow, and left no traces by which those with whom she was brought into daily contact, could know aught of it. Their meetings were continued at intervals for a long time, until he finally became tired of her, and cast her off as no longer able to contribute to the gratification of his sensuality, or to enable him to make a "sensation" among his fellows.

The consequence of this action on his part as might be expected, plunged her into the deepest sorrows, and for a time her mind was bordering upon insanity. She would often throw off all her former reserve and relate to her friends her happy interviews with her "dear ——," and conclude with a torrent of tears which for a time would relieve her, after which she would again relapse into a silent moody manner, only to be again aroused at some fresh thought of him whom she yet dearly loved, though he had seen to her worse than her most bitter enemy could have been.

For a considerable period, these demonstrations have been made by her, of the deep love which she bore to her destroyer, and the matter has, we belive, often been brought to his attention, but always without bringing him to any acknowledgement of the duty he owed to her whom he had so deeply wronged.

From a conversation we lately had with the lady, we are convinced that she is a person of no ordinary mind. She is able to converse with ease and freedom upon almost any subject, and in fact evinces uncommon talent.

FIFTY MULES BURNED.—Between one and two o'clock this morning a fire broke out in the [illegible] omnibus stables of Messrs. Hart, Thomas & Co., on Magazine street, between Harmony and Pleasant streets, Fourth District, which resulted in their entire destruction, together with fifty mules, and, as rumor hath it, three or four men who slept in the hay loft.—It is said that the conflagration was caused by the explosion of a camphene lamp, but whether this was the case or not, it is certain that the fire spread with such amazing rapidity that the mules could not be got out, and were consequently destroyed. Heart-rending, indeed, were the cries of the tortured animals, until death put an end to their sufferings. The loss by this fire could not have been less than $30,000.—*N. O. Picayune, August 14.*

GREAT WESTERN RAILROAD.—The Springfield *Republican* of the 18th says: "The Great Western Railroad, of Illinois, was leased on yesterday to Messrs. Griswold and Wiley, of New York." The *Journal* of the 19th contains an advertisement that this road is to be sold at auction in front of the court house door in Springfield, on the 19th of October.

Crosse R. R.—One Man Killed and Several Injured.

[From the Milwaukee Wisconsin, Aug. 23d.]

One of the most fearful hurricanes that we ever heard of, occurred last night, on the line of the La Crosse Railroad. The storm was at Woodland, a station on the road, some thirty or forty miles from this city, and it arose about supper time.

Several persons were taking their tea, as it came up, in the depot building. In the midst of the storm a train of cars was nearing the station, and the Depot Master, named Fox, fearing violence from the storm, started to go out to his house near by. The cars were driving on, at the time, with an uncontrollable speed. The hurricane drove them before it, swifter even than they had the capacity to go. As Fox stepped out, the blast struck him, as we learn, and knocked him over on the track, upon which the cars were coming so furiously, and they ran over him, almost severing his head from his body.

At the same instant, also, the depot building was wrenched from its foundations by the blast, and the whole building was blown along to a distance of some four hundred feet, and broken all up into a mass of ruins.

A telegraph operator, who was taking tea at the time, in the building, was seriously injured. His name we did not learn.

A store near by was also blown to pieces, and a woman that was in it was badly injured.

We heard an engineer giving some additional particulars about this storm, which were a little too tremendous for our credulity. We give them however, remarking that they are possible though not probable. He told them with an honest face, and they may be true.

He said that there were some cars standing at the depot, loaded with at least three tons of freight each, and that the wind lifted them entirely off the track, and removed them some distance. One car was loaded with lumber, and he said that one of the joist that was blown from it, hit a stump, near by, endwise, and was forced clear through it. His account of the storm was wound up with the assertion, which he said he would bet a "V" on, that one of the Woodland boys was carried up in the hurricane and borne off a distance of a half mile. He was found somewhat stunned but not materially damaged.

After hearing that Engineer's account of it, it must be admitted that it was something of a storm. There was a gale here, in the course of the evening, and some rain, accompanied with frequent flashes of lightning, off in the northwestern direction, but there was no serious storm in this vicinity.

AT COLUMBUS.

Policeman Garlick informs us that as he came in last night, on the Watertown R. R., there was a hurricane about four miles beyond Columbus, which was of the most fearful character. Two houses were entirely demolished in that vicinity, and a man by the name of Clark was killed. Another man had his nose broken and was otherwise badly injured. He says, he never saw such a storm before. It seemed as if it would blow the cars from the Railroad, as they moved along. A farmer along the line took all his family into the cellar, expecting every moment to see his house blown over. It must have utterly destroyed what crops were still standing. We fear that we shall hear of some dreadful accidents and losses, besides those we have already noticed, occasioned by last night's hurricane.

[BY TELEGRAPH.]

WOODLAND, Wis., Aug. 22.

About six o'clock last evening a terrible hurricane passed over this place, destroying every house with the exception of the water station. Mr. Fox, the station agent, while endeavoring to stop some freight cars on the track, which the wind had set in motion, was blown on the track, the cars passing over his head and killing him instantly. Three freight cars were blown about six rods and alighted bottom side up on a wood pile. Two were blown some distance and lighted on their side. Two women were severely, though not fatally, injured. A little boy was carried into the woods, He was found about two o'clock this morning. He was not much hurt. The telegraph line is prostrated for some distance. The railroad track sustained some little injury, which will be repaired before the trains are due.

FERRY BOATS FROM MILWAUKEE TO GRAND HAVEN.—Our correspondent who asserted that not a dollar had been subscribed for the Grand Haven ferry steamers, made the assertion simply to elicit the truth in the matter, and to keep the question alive. There has not, really, been anything actually subscribed, although a large number of our citizens have virtually pledged themselves to a subscription, and when the question comes to them in its ultimate shape, there is not the least doubt but that they will subscribe liberally. There will be no standing back on this enterprise. The people are interested in it, and it will be prosecuted in time for the completion of the Detroit and Milwaukee railway to Grand Haven.—*Milwaukee Wisconsin.*

Harrison's Prize Kitchener.
THE UNEQUALLED SATISFACTION afforded by this Cooking Range wherever it has been tried, has induced the inventor to personally introduce its merits more extensively in the United States. Having since the London Exhibition of 1851 imported some hundreds, and also having fixed them all over England, Ireland, Scotland, and many places on the Continent, I am enabled to produce references from all parts, of the highest standard; and during the past six months residence in this country, I can give those wishing an efficient, durable, economical Cooking Range, firstclass references from parties here having them in use.
Price—For families, $50; for Hotels, $200: and guaranteed to last 25 years.
Agents wanted in every State.
For particulars apply, for two weeks, to the inventor, James Harrison, Tremont House, Chicago, or to the manufacturers, Wm. Resor & Co., Cincinnati, Ohio.
TESTIMONIAL.
[From Sir John Benson, Architect of the Dublin Exhibition.]
MESSRS. HARRISON & CO.: Gentlemen—With this I send a Bank letter of credit for Kitchener. I am happy to state that the Range has proved most satisfactory; works remarkably well, keeps a never-failing supply of boiling water all over the house, and the consumption of fuel is not half what the old Range we had consumed.
I am, Gentlemen, your ob't servant, JOHN BENSON.
Montenoath, Cork, March 17th, 1854.
MERCHANTS' DINING ROOMS, CASTLE ST., LIVERPOOL, 1855.
As proprietor of the above Rooms, I have much pleasure in bearing testimony to the great capabilities of Mr. Harrison's Kitchener, which is erected on my premises. It is, under proper management, able to cook for 1200 to 1500 persons in three hours. DAVID ANDERSON.
As head cook of the Merchants' Dining Rooms, I have had every opportunity, during the past year, of testing the efficiency of Harrison's Patent Kitchener, and cheerfully certify that it is capable of performing all that has been stated, and that is required for the largest establishment.

Planing Mill for Sale.
ONE OF THE BEST ARRANGED AND complete Planing Mills in the city is offered for sale on reasonable terms. To a practical man wishing to engage in a good business no better opportunity can be offered. The present owner has other engagements which prevent his giving his entire attention to the mill, and has determined to offer it for sale. The terms, to responsible parties will be made favorable, and, if desired, a part of the payment can be made in a lot, improved or unimproved, on the West Side. The mill is in constant operation, and may be examined at any time. There is an income from work already rented, sufficient to pay ten per cent. on the purchase money.
Application may be made to F. H. BENSON, Esq., 46 Clark street, or to the Machine Depot of Mr. Jas. Rendel, North Side Wells street Bridge. au11-2w

Sheffield Coal.

DAILY ARRIVAL OF 100 TONS.—THIS coal will compare favorably with the best coals in the market. Professors Porter and Silliman, of Yale College, in their analysis, state as follows:

Your coal is of superior quality for the production of steam. We have used the coal in our grates for several days, and find it perfectly adapted for that use. It burns to a comparatively small quantity of ashes, without producing clinker, &c., &c.

Extract from another analysis: We find your coal even superior to that of the famous Briar Hill in matter of gas and coke.

Our sales, which exceed at the present time by far that of any other yard in the city, prove conclusively that the SHEFFIELD COAL is only to be known to be appreciated.

Among the many advantages that it possesses over others, the following may be enumerated:

1st. The coal is one of the best in the market. Our daily increasing sales prove this fact; analysis proves it. The following are among the many recommendations received from time to time from some of the most extensive manufacturers in the city:

We have for some time past been using the Sheffield Coal at our works for the purpose of producing steam. Considering the difference in price between it and other coals in the market, we give the Sheffield Coal the decided preference. (Signed)

H. P. Moses, Iron Works,
Hamilton Brooks & Co., Manufacturers,
Thomas George & Co., Do.
Frederick Hetz, Chicago Iron Works.

1st. From some of the most extensive Hotel in the city, the proprietors state as follows:

We are using the Sheffield Coal in our houses. We find it pleasant to burn, producing comparatively little ash. Repeated trial has satisfied us that it will compare favorably with the best Coals in the city. Considering the difference in price, we consider it decidedly the cheapest Coal in the market. Signed,

Dodge & Langley, Sherman House,
Stevens & Willard, Matteson House,
A. J. Sisk, Stanwix Hall.

2d. The coal is always dry, and in good condition. At a heavy cost we have erected a mammoth building, (capable of holding 6000 to 8000 tons of coal.) This covering completely protects our coal from rain, and the effects of the atmosphere.

3d. The coal is carefully screened before delivery. This fact alone makes a difference of at least fifty cents per ton in favor of our customers.

This Coal is used extensively in Chicago, by Brick and Lime manufacturers, and is found especially adapted to that purpose.

For information in this line, we would refer to one of the largest Brick manufacturers in the city—Joseph Watkins, Esq. H. S. BROOKS, Agent.

Coal! Coal!!

THE UNDERSIGNED BEG LEAVE TO inform the citizens of Chicago and vicinity, that they are now receiving, and will keep constantly on hand, all of the different qualities of

OHIO AND PENNSYLVANIA COAL,

suitable for this market. Among others, we would call attention to the following well-known varieties of Bituminous Coal, viz: BRIAR HILL, CHIPPEWA (best quality), TALLMADGE, and NEWCASTLE. Also, all of the various kinds of Anthracite Coal, suitable for Foundry and Domestic purposes; and BLOSSBURGH, for Blacksmiths' use, constantly on hand.

Having superior facilities for obtaining the above varieties of Coal (mining most of them ourselves), we can and will sell as cheap as the cheapest; and by strict and prompt attention to business, hope to merit a fair share of patronage.

Orders left at Crawford & Sackett's Iron Store, No. 2 South Wells street, will meet with prompt attention; or at the Yard adjoining Sanford, Hall & Co.'s Warehouse, corner Clark and North Water streets; also, at Yard, No. 143 Canal street, West Side, formerly occupied by Crawford & Sackett.

N. B.—We have at all times, Cargoes of the different qualities of Coal mentioned above for sale at the lowest market price. PRICE, MORRIS & CO., Corner Clark and North Water streets, Chicago, Ill.

Hotels.

The Dement House,

AT FULTON CITY, ILL., FORMERLY kept by J. L. Watkins, has changed hands, and is now kept by Mr. Charles Dement, the owner and builder of the house.

We would say to our Chicago friends who wish to rusticate, that they will find no more pleasant place to spend a week or two than at the Dement House.

We are also informed that a very valuable medical spring has been discovered near there, and the owner is taking prompt steps to improve and furnish with all the necessary comforts and conveniences of a fashionable watering place. The surrounding country is represented as being very beautiful, and at no remote period it will be the great attraction in the warm seasons for the pleasure seeker and the invalid.

This is only a four or five hours' ride from Chicago on one of the best of railroads, where you are landed on the banks of the Mississippi. The whole line of road passes through the most beautiful country, the charms of which cannot but repay any one for the time who has not seen it.

Notice.

THE PAST EIGHTEEN MONTHS' EXPERIENCE has given the citizens of Chicago ample proof that the soap process of cleansing gentlemen's clothes will not do, as practised by those inexperienced in the business. The fact of the matter is this, that, unless your coats, vests and pants, are dyed, cleaned and neatly repaired, by men skilled in their vocation, they had far better never be touched at all; but when they are operated upon by experienced workmen, it is certainly a great saving to the community at large, as the same continues much to their comfort. Now, gentlemen, all of you who know anything, know enough by this time to be fully convinced that the only true and reliable source to have your coats, vests and pants, dyed, cleaned and repaired to look like new, is by COOK & McLAIN'S Chemical process. It certainly does remove every spot of grease, paint, wax, and tar, together with all other blemishes and impurities to seem to appear on the garments. The spots are warranted not to re-appear, as a beautiful finished lustre is put on as when first new.

Gentlemen, call at COOK & McLAIN'S and look at specimens of their Coat Dressing. If it fails to please you, no charge will be made.

Remember, COOK & McLAIN, 96 Dearborn street, south of the Post office. au10-'56-1y,is

USE THE BEST.

JAMES PYLE'S DIETETIC SALERATUS is acknowledged by all who try it, the purest and best article in use. It is entirely free from the caustic impurities of common saleratus, so destructive to the digestive organs, while for making Biscuit, Cake, and all kinds of Pastry, admirably light, it exceeds the best baking soda, and requires less shortening to produce the same richness. Parents who regard their children's health should use no other.

It is sold at all the groceries, in 1lb, ½lb, ¼lb packages, with the name of JAMES PYLE, thereon, without which none is genuine.

HOME CIRCLE READING.

AN OLD PROBLEM.—The question whether life is attended with more of happiness or misery, has often been discussed, and will doubtless continue to excruciate the wits of men till doomsday. It was the remark of an ancient sage that the the best thing that could have happened to a man was never to have been born, and the next best, to have died the next moment after he came into existence. This is gloomy and chilly enough for the veriest anchorite; but it is quite over-topped by the Yankee philosopher, who declared that it would have been a thousand dollars in his pocket, if he had never been born! All discussion on this topic, however, is rendered idle by the fact, that we do not love life for the happiness it brings, but because we dread non-existence. We hate to "lose, though full of pain, this intellectual being"—to exchange a positive existence for a dreary blank. No matter how wretched we have been, we cling no less tenaciously to life—we shrink from its termination, as the end, not merely of enjoyment, but of hope. As losing gamesters are the most desperate, so those who have met with the bitterest disappointments—who have done little else than struggle with misfortune, and take arms against continual "seas of troubles"—are most loth to quit their hold of life. Nay, the repugnance to death increases oftentimes just in proportion to the consciousness of having lived in vain—to the violence of our efforts, and the keenness of our disappointments; for we hope to find in the future rich amends for the past. Even those whose projects are continually blasted—who, Sisyphus-like, are doomed to a perpetual renovation of hope and disappointment, and as the poet says,

> "Are made desperate by too quick a sense
> Of constant infelicity; cut off
> From peace, like exiles, on some barren rock,
> Their life's sad prison, with no more of ease
> Than sentinels between two armies set"—

even they, incorrigible to experience, are willing to travel the same dull, hackneyed round—for "hope, the charmer," pictures to them still the possibility of better days, and the dullest scene looks bright, compared with the darkness of the grave!

.... Why is an obstinate witness like a leaky ship? Because he requires hard *pumping*.

.... The English national debt would give five dollars to each being of the human race. We "go in" for its distribution.

HONORS EASY.—"If a man makes me keep my distance," says POPE, "the comfort is, he keeps his at the same time."

.... Passionate, hair-trigger men, are not the worst persons. It is the cool, calculating, dissembling hypocrite of whom you should beware. There is no deceit about a bull dog. It is only the cur who that sneaks up and bites when your back is turned.

THE DEPTH OF BASENESS.—There is a vocalist in this city who has a bass of such a depth that all other basses are altos to it. He went so low the other night, in an operatic piece, that he has not yet come back again. He is of French extraction, and lives on bass and bull-frogs.

.... Men are apt to censure sharply in others what they practice themselves without scruple. PLUTARCH, tells of a wolf, who, peeping into a hut where a company of shepherds were regaling themselves with a joint of mutton, exclaimed:—"What a clamor would they have raised, if they had caught me at such a banquet!"

PHILOSOPHY OF COURTING.—There are few operations which one has to perform in life, that require more delicate management, more truly scientific skill, than that of courting. One of the most perplexing problems about the business, is—How long should one's labors in this line be protracted? There are some daring lovers who carry the heart they wish to capture, at once by storm; while others besiege the flint-walled affections of their mistresses for a period greater than the Greeks required to besiege and sack Ilium. The best rule, probably, is to be neither too cowardly nor too bold in your courtship. The BONAPARTEAN system is the best for the majority of persons to adop. Concentrate the forces of your charms *on the enemy's weakest ponits*, and depend upon it, her human nature can't resist you long. When she begins to yield, bring up and charge with the Imperial Guard of your "corner-lots," bank-stocks, and mortgages, and the battle is won.

MATTER-OF-FACT MEN.—Satirizing the matter-of-fact character of his countrymen, the Germans, that grotesque and dare-devil humorist, RICHTER, says that the membranes of their brains are living memorandum books, and their legs secret metewands and pedometers. "They cut asunder the veil of the nine muses, and measure the hearts of these girls with their compasses, and their heads with a guage." The thorough-going Englishman—especially of the Manchester type—is almost as precise, prosaic, and plodding. He has no idealities, nor does he know the meaning of the term abstraction; he reduces everything to sight and touch—views everything in the concrete. Show him the coat in which NELSON died at Trafalgar, and he would wonder whether it was of West of England or Bradford manufacture. Exhibit the sword which CROMWELL wielded at Marston Moor, and he would pronounce oracularly upon the workmanship and the qualities of the steel. What BURKE said long ago of a class of Englishmen—that they value only what they can measure with a two-foot rule, or count on their ten fingers—is true of all the Bulls collectively. Of their benevolence, SYDNEY SMITH says that they will give time and money when they are convinced, but love dates, names and certificates. In the midst of the most heart-rending narratives, BULL requires the day of the month, the year of our Lord, the name of the parish, and the countersign of three or four respectable householders. "After these affecting circumstances, he can no longer hold out; but gives way to the kindness of his nature—puffs, blubbers, and subscribes." This practical matter-of-fact way of viewing "distressing circumstances," is ludicrously illustrated in an advertisement put forth some years ago by an Englishman whose daughter ran away with a captain of dragoons. "If the young girl refuses to return to her inconsolable parents"—ran a part of the advertisement—"she is desired at least to send back the little key of the chest of linen she has carried off." This is al, most as rich a jest as a passage in an old play, where a son announces his sister's dishonor "Ruined!" exclaims the father. "Lost, disgraced!" adds the son. The father rushes up and down the stage frantically, and then, wiping the tears from his eyes, exclaims in heart-rending accounts:—"*Joe, I wouldn't have had this happened for £1 2s. 3d.*"

BLEEDING "THE GOVERNOR."—"Fast" young men have endless ways of opening the purse-strings of their "governors," such as the plea of "keeping up a respectable appearance," threatening to blow one's brains out, etc.; but TOM MOORE tells of a young gentleman who had an original device for this purpose, that throws these hackneyed methods entirely into the shade. When he was short of money, he always threatened his family with the publication of his poems. An influx of cash fol[illegible] to the extent of his wishes.

REASONS FOR DRINKING.—An English writer in 1689, gave the following reasons for "taking a smile." A century has elapsed, and no better reasons have been discovered:

> "Good wine, a friend,
> Or being dry;
> Or lest I should be
> Bye and bye;
> OR ANY OTHER REASON WHY."

That last reason is very common.

.... An exchange tells the following of a young man who had a light, incipient moustache:

One day, while fingering the few hairs, he said to Harry:

"Hadn't I better dye this mustache?"

"Oh, no!" replied Harry; "let it alone and it will die of itself."

REASONS ENOUGH.—GUION went into Nell & Springer's, on State street, and tried to get a pair of pants on tick. He was peremptorily refused, on the ground that he might "bust up" or "go off."

JACK AT ALL TRADES.—To be successful in life, stick to one thing. One reason why so many men burst up in business in this country is because they have too many irons in the fire. When bully BOTTOM, the weaver, undertook to "do" all the parts in the most lamentable comedy of Pyramus and Thisbe, he no doubt set himself down for an universal genius. Not only would he play *Pyramus* and *Thisbe*, but he put in for the *Lion* and the *Wall*, the prologue and the epilogue; and, had there been an orchestra, he would unquestionably have insisted on being the first violin. There are thousands of men in society who exhibit just such an absurd and monopolizing ambition. As SYDNEY SMITH said of Lord John Russell, they are ready to attempt, at a moment's notice, the

most incongruous things,—to go up in a balloon, to perform an operation for cataract, or to take command of the channel fleet. But, in ninety-nine cases out of a hundred, the old adage proves true of such persons, that a Jack at all trades is good at none. A circus rider may ride five or six horses at a time and not break his neck, but a man who drives five or six trades or speculations abreast, generally tumbles to the ground. Knives that contain a dozen or two blades, two or three corkscrews, a comb, a file, a nail-cleaner, a small saw, a toothpick and a pair of tweezers, are wretchedly adapted to any of the purposes, and after a little trial are thrown away in disgust.

FRENCHY.—A capital illustration of the French character is furnished by a remark made by a Parisian mechanic concerning BERANGER, of whom he was an impassioned admirer. Extolling the poet's goodness, "What a man! what sublime virtue! how is he beloved!" he exclaimed, "Could I live to see his funeral *Quelle spectacle! Quelle grand emotion!*" Perhaps he has lived to witness the "grand emotion."

Strangely as this remark may strike one, it is not odder or more characteristic than the following made by MALLET DU PAN concerning the tastes of BUFFON—which we defy the gravest reader to peruse without laughing himself "into stitches" at its ludicrousness. With all seriousness, and without the slightest suspicion of the lack of congruity, MALLET says:

"M. DE BUFFON prefers MILTON to all other epic poets. *He has his hair curled with irons every day*, and at a less advanced age had it twice a day."

Frenchy—intensely—isn't it? Can anything be more profoundly characteristic of "the grand nation," with which the latest discovery in science and the fashion of a neck-tie are of equal consequence?

GENTLEMAN'S RETREAT.—It is said that the reason why drinking saloons are sometimes called by this title, is—those that visit them first treat and then *re-treat*.

.... One of the queerest things in this reforming age, is, that persons who set themselves up for reformers never imagine that they themselves need reformation. They should try their hand on home manufactures.

GAMBLING—has been truly called a magical stream. If you but wade far enough into it to wet the soles of your feet, there is an influence in the water which draws you irresistibly in, deeper and deeper, till you are sucked into the roaring vortex and perish.

.... We shall notice the answers to Arithmeticol Problems in the next Home Circle Reading.

Another State Foreshadowed.

The last Superior *Chronicle* brings us some additional information concerning the Red river settlers in British America, which gives us a very strong hint that North Pembina may free herself from Great Britain, and apply for annexation to the United States. The information is furnished to the *Chronicle* by Captain Kennedy, who was sent to the Red River of the North, by the Canadian Government to learn the condition of the people of that region, and to observe the workings of the Hudson Bay Company. Captain Kennedy returns highly delighted with his trip, and gives a very enthusiastic description of the country.

The settlers along the Red River have been very much oppressed and ill-treated by the tyrannical monopoly, the Hudson's Bay Company, and have made known their case to Parliament. Captain Kennedy says that they are determined to free themselves from the control of the company, and that they look to the Canadian Government for assistance. Their first desire is to be annexed to Canada, but failing in this, they will apply for annexation to the United States. We do not countenance fillibustering, but we do believe the genius of our institutions is expansive, that American enterprise has no limit but the world, and that the manifest destiny of this Western Continent is to be all peacefully, quietly merged, into the wide-awake American Republic. Walker is a pirate and a buccaneer, because he essays to force upon a people a Government against their will; but if this young and fast-growing country will throw off the yoke of bondage, we would welcome her with open arms as the next new State.

The Captain feels very confident that the British Government will not renew the charter of the Company, but place this vast and fertile domain under the jurisdiction of Canada. While in the settlement, intelligence from England was received to the effect that the agents of the Hudson Bay Company had represented to the committee of Parliament, having in consideration the subject of the renewal of the charter, that the settlers of Red River were well satisfied with the course of the Company. Indignation meetings were immediately held by the settlers, at each of which strong resolutions were passed, denouncing the course of the Company, and denying the representations of these agents. The Captain has in his possession the proceedings of these meetings, which will be embodied in his report. We will publish an abstract of it when it is received.—*St. Paul Times.*

A GOOD HIT.—J. Phoenix, correspondent of Boston *Post*, notes the following characteristic of fashionable society at Nahant:

The Double Eye Glass Club, (D. I. G. C. they place after their names) are flourishing; two of them have improved so that they can see through their glasses nearly as well as without them. It is quite refreshing to see a member take down his glass to read the morning papers, and the haste with which he replaces it if surprised by an outsider. A friend named M——, from New Orleans, who has always had a taste for fashionable life, and in fact has nearly starved himself to death to improve his figure, being anxious to join the club, went to Boston yesterday for the purpose of procuring the tools. Entering a fashionable jewelry establishment he made known his wishes, and a box of double eye glasses was placed before him.

"What focus would you prefer, sir?" inquired the shop-keeper with immense politeness.

"Window glass," replied M——, solemnly, "I'm not near sighted, sir, I'm stopping at Nahant."

"Oh, exactly," said the jeweler, and he fitted out his customer with great celerity.

M—— says he is afraid it wont work; the instrument pinches his nose to that extent that extent, that he has acquired a nasal pronunciation, and it is painful to him to bid his friends "Good bording."

HAIR RESTORATIVE.—The demand for this unrivalled preparation for the hair and skin is beyond the possibility of a doubt, and its sale is greater than any other Hair Restorative that has ever been before the public. Tens of thousands of persons who were bald and gray, and others whose faces were covered with unsightly blotches and pimples, are now, with their own glossy hair, and with faces comely and fair to look upon, seen daily promenading the streets of all the principal cities of the Union, and by their influence spreading the fame of Wood's Hair Restorative throughout the civilized world. But the trial of one bottle is more convincing than all we could say in a whole Newspaper column.

☞ It does not dye but gives life, health, and beauty to the decaying, falling, and dead, restoring as if by magic, that which was supposed to be irrecoverably lost. Heads nearly bald and others nearly white, are daily being changed to their pristine beauty, and faces covered with pimples are rendered as smooth as an infant's and blushing as a rose, all by the use of Prof. Wood's Hair Restorative. GLORY TO THE HIGHEST!—Nothing can equal the success with which Dr. H. James' glorious Extract of Cannabis Indica has been administered, within the past few days, to the sick of Chicago and vicinity, by Dr. Thomas Tilton, the old discoverer's son-in-law, fellow-traveler and pupil. Doctor Tilton took rooms at the Massasoit House only a little over a week ago, and has been administering the Extract of Cannibas Indica, with the best of good results, to persons afflicted with Consumption, Bronchitis, Asthma, Liver Complaint, Ulcerated Stomach, Clergymen's Sore Throat, Coughs, Colds, and nervous excitement and debility. For all these complaints, the Cannabis Indica is a certain and speedy remedy. It is a sovereign cure, even of the most hopeless cases, as thousands stand ready to testify, under oath if necessary. It restores vitality to the shattered nerves, it heals all internal sores, tubucles and ulcerations, allays all internal inflammations, acts as a substitute for food, builds up decaying fibre and muscle, exhilarates the spirits, is stimulous without reactionary power, purifies all fluids and secretions, and tones up the stomach to accord with all the requirements of the best of health. There is no medicine in the world to equal it. Give it to a person in the last stage of disease, and its beneficial effects are made apparent in an hour. Dr. Tilton will remain for the season, and we advise you to call on him at once, either in your own behalf or in behalf of your suffering friends. He will furnish you with the Extract, or he will furnish you with a recipe by which you can make it yourself. Take advantage of his stay here. Go to him at No. 3 Massasoit House, and have him apply his father-in-law's latest invention to you. It is called the "Spiro Dynameter," and in a moment will tell the exact strength and precise condition of your lungs. By addressing Dr. Tilton a note through the Chicago Post Office, inclosing four postage stamps (12 cents), a recipe will be sent in return, free of charge, to any part of the Union.

LEA & PERRINS' WORCESTERSHIRE SAUCE.—The attention of Hotel Keepers, Proprietors of Eating Houses, Caterers for Clubs, Mess-rooms, and Private Families is commended to a trial of LEA & PERRINS' famous Worcestershire Sauce. This condiment by its own merits has attained the highest rank as a pleasant, palatable, and wholesome Sauce, applicable to soup, fish, hot and cold meats, game, &c., &c., is extensively used in all quarters of the globe.

The numerous "Imitations" on both sides of the Atlantic speak loudly of its merits; and the fact that it received the only Medal awarded to foreign Sauce at the New York Exhibition attests the estimation in which it is held by those selected with special reference to their ability to judge of the quality of similar articles of table use. And being the most popular Sauce in the market unprincipled parties are offering for sale spurious Sauce by slightly varying the spelling of "LEA & PERRINS," only proprietors of the Genuine Sauce.

$1,000—TASTELESS AND CONVENIENT.—BRADFORD'S Infallible Gum-Coated Pills, for the positive cure of diseases, where that nauseous stuff, Copaiva, is generally used. The proprietor of these Pills will forfeit the One Thousand Dollars if they fail to make a cure, and hopes this he may be instrumental in curing thousands of unfortunates of diseases for which the usual remedies (which are often ineffective) are nauseous, and certain to accomplish the exposure of the Patient. The Infallible Gum-Coated Pills are without smell—cannot be detected as a specific—and [illegible] diseases, as they look like any ordinary Pill, and may be carried in the vest pocket, and safely taken anywhere. They can be swallowed without the slightest inconvenience, having no taste and producing no unpleasant effects on the stomach. No other remedy of like nature possesses such advantages, nor will they cure so surely and so speedily as the Infallible Gum-Coated Pills.

Price $1 per box, or 6 boxes $5. Sold by FAHNESTOCK & DAVIS.

WHITE TEETH, PERFUMED BREATH and beautiful complexion, can be acquired by using the "Balm of a Thousand Flowers." What lady or gentleman would remain under the curse of a disagreeable breath, when by using the "Balm of a Thousand Flowers" as a dentrifice, would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the subject is so delicate that their friends never will mention it. Beware of counterfeits. Be sure each bottle is signed FETRIDGE & CO., N. Y.

For sale by all druggists.

"WOODLAND CREAM"—A Pomade for beautifying the Hair—highly perfumed, superior to any French article imported, and for half the price. For dressing Ladies' Hair it has no equal, giving it a bright, glossy appearance. It causes a Gentleman's Hair to curl in the most natural manner. It removes Dandruff, always giving the Hair the appearance of being fresh shampooed. Price only fifty cents. None genuine unless signed

MORTGAGE SALE.

WHEREAS ISAAC D. HARMON AND Anne N., his wife, and Charles L. Huntoon, and Emeline C., his wife, did by their certain Deeds of Mortgage, dated on the twentieth day of June, A.D. 1857, convey to the undersigned the following described premises, situate in the County of Lasalle and State of Illinois, to-wit: Lots one (1), two (2), three (3), four (4), seven (7), eight (8), nine (9) and ten (10), in Block Nineteen (19), in Lasalle Center in the City of Peru. Also Blocks No. nine (9) and ten (10) in Baldwin's Addition to the city of Lasalle, containing five acres each. Also, the following described premises, situate in the County of Marshall, State of Illinois, to-wit: That part of Lot No. one hundred and seventy-four (174), which fronts twenty-four (24) feet on Second street and [illegible] in the City of Henry. Also, Lot fifty-five (55) and Lot fifty-six (56) [illegible] in Lombard's Addition to the Town of Henry. Also that part of Lot fifty-eight (58) in said Lombard's Addition to the Town of Henry, which lies twenty (20) feet on Main street and running back the entire length of said Lot. Also, the south east half of Lot two hundred and ninety (290) in the said City of Henry, which said conveyances were made to secure the payment of the sum of sixteen thousand dollars and interest according to the tenor and effect of a certain promissory note of even date with said mortgage deeds; and which said mortgage deeds are recorded in the Recorder's Offices in the Counties of Lasalle and Marshall. And, whereas, in and by the said mortgage deeds, the undersigned are authorized, in case the said Harmon and Huntoon should make default in the payment of the said promissory note, to sell the said premises and all the right and equity of redemption of the said Harmon and Huntoon and Anne N. and Emeline C., their wives, therein, at public auction at the Court House door in Chicago, Cook County, Illinois, to the highest bidder for cash, after publishing a notice in a newspaper printed in the city of Chicago, [illegible] days before the day of said sale, and to make, execute and deliver to the purchaser or purchasers thereof, a deed or deeds for the premises so sold.

Now, therefore, default having been made by the said Harmon and Huntoon in the payment of said note, described in said mortgage deeds, notice is hereby given that the undersigned, by virtue and in pursuance of the power of sale in said mortgages contained, will on Saturday, August 29th, A. D. 1857, at 10 o'clock A. M. of said day, at the north door of the Court House in the County of Cook, sell at public sale, to the highest bidder for cash, the premises herein before, and in said mortgages described, for the purpose of satisfying and discharging the said promissory note and the expenses of said sale.

Real Estate for Sale.

ILLINOIS CENTRAL RAIL ROAD. LANDS FOR SALE.

THE ILLINOIS CENTRAL RAILROAD Company invites the attention of Agriculturists and Farmers to the fertile lands adjacent to their road, which are offered for sale upon low terms, and long credit at low rates of interest.

It is the policy and wish of the Company to sell all their lands to actual settlers; and no inducement is offered to speculators; in fact none will be sold on long credit, without the distinct obligation of cultivation.

Illinois occupies the most central position of the Western States, and comprises the most fertile section of the belt of land extending from the Atlantic Ocean to the Missouri River, and including New York, New Jersey, Pennsylvania, Ohio, Indiana, Illinois, Michigan, Wisconsin, Iowa and Northern Missouri.

Unlike the States North of us, the productions are not checked by rigorous winters—nor is the heat of summer oppressive. The lands West of the Missouri gradually and rapidly decrease in fertility, till they blend with the Great American Plain, and being chiefly, if not solely adapted to grazing, can never compete with those of this state.

The lands bordering upon the Missouri and Kansas Rivers, and upon the lines of the proposed roads in Iowa, have been taken up, and are now selling at from $10 to $15 per acre, although settlers have to pay heavy freights upon the transportation of their agricultural tools, furniture and goods; and when their crops are produced, the extra cost of transportation to Eastern markets exceeds the cost of production.

Looking to the future growth of our country, this state, which combines the most favorable temperature with the richest soil and most healthy climate, will for all time be the great grain producing district. It is full of mineral wealth, such as Coal, Iron, Lead, Limestone, &c., and has already the advantages of churches and schools, of population, and of the investment of capital. Moreover, there is scarcely a county in Illinois which has not a supply of timber. The southern section of the State includes at least 2,000,000 acres of the best quality of timber land; and the extensive prairies in adjoining States, accessible by the Lakes, furnish Chicago with an immense quantity of timber and lumber, amounting in 1856 to 400,000,000 feet.

Illinois, especially during the last ten years, has been rapidly developing her resources. The population is now about 1,500,000, and eighty millions of dollars have been expended for Railroads, which, with the waters of the Mississippi, Illinois River, the Michigan Canal and Lake communications, afford cheap and convenient means for the transportation of her products to every market. About one million acres of the Company's lands have already been sold, and many flourishing villages evince the rapidly increasing prosperity of the country. Such is the facility and economy with which these lands can be cultivated, that in two years farmers can readily surround themselves with all the comforts of old settled farms in the Eastern States; and such is their fertility and productiveness, that property purchased at from $6 to $25 per acre at six years' credit and three per cent. interest, can be fully paid for within that time, together with all the costs of improvements, by extraordinary industry, from the profits of the crops.

Although it is evident that lands in the vicinity of railroads in Illinois will advance to $50 or even $100 per acre within ten years, yet the interests of this Company are more advanced by placing their property in the hands of farmers, to settle the country, relying upon the business of the road for its chief profit, and to enable it to discharge its obligations to the State. These considerations induce the policy of rapid sales, which have been progressing and increasing for two years past, and will be pursued till the lands are finally disposed of. No encouragement is given to speculative purchasers, as the Company does not wish to dispose of any of its lands except for actual settlement and cultivation. It is evident, therefore, that the best interests of settlers can nowhere be so well promoted as by purchasing and settling upon these lands.

Fine Residence Property

ON MOST FAVORABLE TERMS.

THE UNDERSIGNED IS NOW PREPARED to sell at private sale, to parties desiring first-class Residence Property, and wishing to improve immediately, Two Hundred Lots in Blocks five, six, seven, eight, nine, twelve and thirteen in Union Park, Second Addition, in West Chicago.

That the advantages of the West Division are fast becoming appreciated is evident from the fact that its population is shown by the census returns to double itself every three years. If that rate of increase should continue, the number of its inhabitants will amount in six years to one hundred and fifty thousand. It contains most of the high ground, is protected from the east winds, and on the healthy side of the city, where the south-west winds of the hot season bring pure air from the prairie, instead of the noxious vapors of the river, into which nearly all our sewers empty themselves. With one-half the harbor front, and two-thirds the territory within the city bounds, and unlimited room for expansion beyond, receiving all the great Railroads from the west, north and north-west, the main business streets passing through it, the only part of Chicago where the products of Northern Illinois, Iowa, Wisconsin, Minnesota and Nebraska can be received and shipped without the necessity of crossing a draw-bridge,—it requires no sagacity to see that in time it will become the principal business part of the city, as it is already the first in population, and that Lots there will rise in value steadily and rapidly for many years to come.

The property now offered is strictly first-class, and is the only first-class property in Chicago that can be bought at a price and upon terms within the reach of gentlemen of moderate incomes. It extends from Lake street north to Depot place, and from Ada street west to within one block of Union Park, a beautiful public park containing eighteen acres of ground, and the only large park that will ever be laid out within walking distance of the centre of the city. According to a topographical survey made in 1854, by D. Harper, Esq., then City superintendent, the surface level is the highest in Chicago, being seventeen feet above Lake Michigan, and ten feet higher than the natural surface at the corner of Lake and Clark streets—a very important consideration in view of the great expense and inconvenience of filling up and raising the grade in those localities where it will be required.

The east line of the property is about one mile, or fifteen minutes' walk, from the new Merchants' Exchange, the commercial centre, and within four blocks of the geographical centre of the city. The buildings of the Chicago Theological Seminary, to be erected next year, at an expense of over a hundred thousand dollars, will be in the immediate vicinity. Walker's omnibusses running to State street, pass on Lake street every half-hour, and will be increased in number as the public accommodation may require. The Gas and Water Pipes and Sewers will soon be laid on the principal streets. The market house, good public and private schools, and churches of nearly all the denominations are within a short distance, and the neighborhood is in all respects pleasant and desirable.

Each block is well fenced, and every lot has a good new six-foot sidewalk in front, and is handsomely ornamented with elm, maple, mountain ash, larch, spruce and fir trees, taken from a nursery and set out by an experienced landscape gardener.

The conditions of sale will be as follows:—1st. Every buyer to begin building within six months. 2d. No house to be erected within ten feet of the street line, or of a less value than one thousand dollars. 3d. Not more than two lots to be sold to any one person, unless he will covenant to make improvements to the value of five thousand dollars, when he shall have the privilege of four lots. 4th. Parties wishing to build immediately shall have a credit of six months on the cash payment.

Prices will range from forty to seventy-five dollars per front foot.

TITLE.—A full and complete abstract will be exhibited from the office of Rees, Chase & Co., with a general warranty deed from Wm. B. Ogden. The undersigned will give agreements, in the usual form, with thirty days' grace, for special warranty deed, taking notes for the deferred payments.

TERMS OF PAYMENT.—One-tenth of the purchase money down, one-tenth in six months, one-tenth in twelve months, and the balance in eighteen semi annual payments, with interest semi-annually, at seven per cent. per annum; or one-third down and all the balance at the end of ten years, with interest semi-annually, as the buyer may prefer. Purchasers may have the right to pay up and receive a deed at any time.

Medicines, &c.

ONE DOLLAR WILL BUY

ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public, namely, DR. SANFORD'S INVIGORATOR, or LIVER REMEDY, that acts as a Cathartic, easier, milder and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operation of most Cathartics. It strengthens the system at the same time that it purges it, and when taken daily in moderate doses will strengthen and build it up with unusual rapidity.

DR. SANFORD'S INVIGORATOR is compounded entirely from new articles of medicine, viz: Gums.

Some idea of the strength of those gums may be formed when it is known that one bottle of the Invigorator contains as much strength as one hundred doses of Calomel, without any of its deleterious effects.

Though possessing rare medicinal powers, these Gums have been but little known to physicians, and never used in their prescriptions until used in the form of the INVIGORATOR, which met with such unprecedented success as to induce the proprietor to offer it as a family medicine tried and known in its effects. It has rarely ever failed to cure Liver Complaints in their worst forms.

INDIGESTION being caused by a deranged Liver, is cured when the Liver is excited to action.

JAUNDICE is caused by an improper action of the Liver, and as a proof that the INVIGORATOR relieves this disease, let any one troubled with Jaundice take the Invigorator regularly one week, and their skin will begin to assume the original color.

COSTIVENESS can be permanently cured by the Invigorator. Take it in small doses on retiring, and it assists nature in her operations. By gradually diminishing the dose, the bowels are left in a healthy and active state, and work as regularly as clock work.

SICK HEADACHE is very soon relieved by taking a double dose of the INVIGORATOR, which corrects all acidity and sourness of the stomach.

For an over-loaded stomach it has no equal, as it relieves all oppressive or uneasy feeling after eating heartily. For a family medicine generally, all who use it speak in the highest terms.

Dr. Sanford's Invigorator

Came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything edible without trouble, while before nothing but the lightest food would digest, and often that gave pain. Now, what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.—State Fact.

We take infinite pleasure in recommending this medicine as a preventative for FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

There has never been tried in our family a remedy which has met with such unbounded success in the cure of diseases incident to children, as DR. SANFORD'S INVIGORATOR; nor is it alone as a Cathartic so mildly and gently, and seems to renovate the system so thoroughly that we think we are doing a service to all in advising them, when they need medicine, to try this remedy. There are cases that have come under our notice where great benefit has been received in diseases of the Liver, Stomach and Bowels, where all other remedies failed to give relief. It has become so useful in our family that we will not be without it.—(Jacksonville (Ala.) Republican.

DR. HUBBELL'S

MEDICAL INFIRMARY,

69 RANDOLPH STREET, 69

Opposite the Revere Hotel.

TO YOUNG MEN AND OTHERS.—NERVOUS Debility and Chronic Diseases, the first and direct consequence of excess and abuse of the sexual system, is a peculiar diseased condition of the seminal organs, which is produced by masturbation. The following disorders, some in one case, some in another, are again the direct consequence of this disease, viz: Seminal Emissions, General Debility and Nervousness, Distaste for Society, Gloomy Presentiments, pain and weakness in the back, impairment of mental vigor and memory, weak and watery eyes, eruptions on the face and body, restlessness or vicious dreams and unrefreshing sleep, unfitness for marriage relation, improper excitability of the organs, stricture, costiveness, piles, dyspepsia, &c.

To the truth of this, more or less in each case, every sufferer from solitary indulgence can attest. And further, any latent or family predisposition to disease, as scrofula, consumption, apoplexy, rheumatism, epilepsy, imbecility, impotence, insanity &c., is almost surely eventually developed into activity, and is actually the most frequent cause of those maladies in young persons, as proved by the statistics of all countries. And this is equally true of the sexes. Still if taken in time this disease and its consequences is perfectly amenable to treatment.

Dr. Hubbell has for many years past been consulted upon so many and distressing cases of this vice, that his attention has been necessarily much directed to its treatment and cure, and he is happy to add has, beyond his most sanguine expectations, matured a treatment at once safe and certain, and free from painful operations or nauseous medicines.

Think and reflect upon the fact, that an inexperienced physician is worse than none at all, and that it requires constant attention to private diseases to acquire a competent knowledge of their treatment. It is far better to go at once to those who understand the disease in all its minutia.

Having been long established in this city, he can appeal to all for a certificate of success, which should have great weight with the inexperienced.

Persons living at a distance, by giving a plain statement of their cases, will be attended to punctually, and medicine forwarded by express to all parts of the United States.

Subscribed and sworn before me, this 17th day of June, 1857. JOHN K. KENNEY, Alderman.

AUDITOR'S OFFICE, STATE OF ILLINOIS, }
Springfield, July 10th, 1857. }

Whereas, the Howard Fire and Marine Insurance Company, located at Philadelphia, in the State of Pennsylvania, has filed in this office, a statement of the condition of its affairs, as required by "An act to regulate the agencies of Insurance Companies not incorporated by the State of Illinois," approved February 14, 1855; and whereas said Company has furnished satisfactory evidence that it is possessed of the required amount of capital invested in stocks and mortgages, and has filed in this office a written instrument, signed by the President and Secretary thereof, appointing Lemuel S. Ellsworth and Tertius W. Wadsworth of Chicago, its agents for the transaction of the business of said company, and fully and unreservedly authorizing him to acknowledge service of process for and on behalf of said company, consenting that service of process upon the agent, shall be taken and held to be as valid as if served upon the company, and waiving all claim of error by reason of such service.

Now, therefore, in pursuance of the provisions of the act aforesaid, I, Jesse K. Dubois, Auditor Public Accounts of the State of Illinois, do hereby certify that the said Lemuel S. Ellsworth and Tertius W. Wadsworth is authorized, as an agent for the said company, to transact the business of Insurance in this State, until the thirty-first day of January, in the year eighteen hundred and fifty-eight, so far as he may be legally empowered to do by said company.

In testimony whereof, I have hereunto set my hand and affixed the seal of my office, at Springfield, this tenth day of July, A. D. 1857.

North Shore Line Steamboats

DETROIT AND BUFFALO.

THE NEW AND MAGNIFICENT STEAMERS PLYMOUTH ROCK, WESTERN WORLD and MISSISSIPPI will form this line the ensuing season and commence running immediately upon the opening of navigation, as follows:

PLYMOUTH ROCK, ... P. J. RALPH, Commander.
Will leave Detroit—Mondays and Thursdays.
" " Buffalo—Tuesdays and Fridays.

WESTERN WORLD, ... J. S. RICHARDS, Commander.
Will leave Detroit—Wednesdays and Saturdays.
" " Buffalo—Mondays and Thursdays.

MISSISSIPPI, ... S. G. LANGLEY, Commander.
Will leave Detroit—Tuesdays and Fridays.
" " Buffalo—Wednesdays and Saturdays.

The steamers are all new, of the largest class, about 2000 tons each. The Commanders are [illegible] gentlemen of great experience and capability. They are fitted up and furnished for the convenience of passengers in a style of comfort and luxury, entirely unequaled, and are in all respects considered the safest and most comfortable steamers that sail upon the Western Waters.

For the transportation of Freight, the Line will surpass anything ever before offered to the public, having arrangements with parties between Boston and New York, and points west of Buffalo to St. Louis, which will enable them to forward goods and merchandise with greater dispatch than has ever yet been attained.

For the transportation of live stock these steamers offer facilities to drovers which cannot be surpassed or equaled.

Shippers of merchandise from the East, should mark packages to the care of C. L. Seymour, Buffalo; merchandise from the West, should be to the care of John [illegible], Freight Agent, Detroit.
